

## Our priorities for 2026 (final).

### **1. Broadening our volunteer force**

We will foster wider community involvement in the park and strengthen our shared identity by improving how we promote volunteer work.

### **2. Conserving and improving the park's environment**

We will enhance both the natural and built features of Broomfield Park, ensuring its beauty, biodiversity, and heritage are protected and improved for future generations.

### **3. Celebrating heritage**

We will work with Enfield Council and heritage partners to secure a phased plan for memorialising Broomfield House and to develop an ongoing heritage strand within FoBP.

### **4. Increasing public engagement**

We will improve awareness of FoBP's work and attract new visitors by offering inclusive events and activities that celebrate Broomfield Park's heritage, nature, and community spirit.

### **5. Strengthening partnerships**

We will work with Enfield Council, Palmers Greenery Community Café, and other local organisations to share expertise and deliver joint projects for the benefit of park users.

### **6. Strengthening financial management**

We will continue to improve our financial processes to ensure transparency, accountability, and that all funds are directed towards our charitable objects.
