- Boost learning with built-in Android OS
- Powerful screen sharing, smart, wireless sharing from multiple devices
- Create more engaging lessons with the built in intelligent Apps

Unlimited learning possibilities

Samsung's interactive display offers a dynamic, engaging experience designed for the classroom of the future. Its enhanced usability and compatibility make it easier for teachers to leverage education apps and features that optimize lessons and help students discover the joy of learning.

**Boost learning with familiar UX**

Android OS

The Samsung touchscreen is an Android OS-based product, providing intuitive and convenient usability to users. Its excellent compatibility with Android devices makes it easy for teachers to boost learning, while the ability to customize the home screen with frequently used apps brings added convenience.

Display multiple screens at once
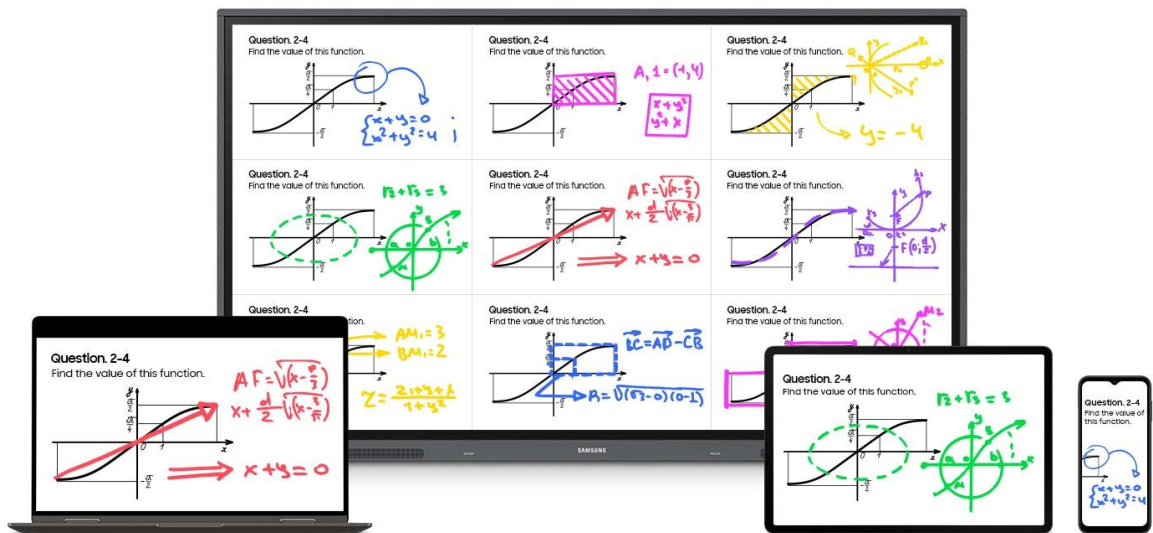

Easy Multitasking

A variety of screen mode options, including split screen and multi-window, enable teachers to easily display and read multiple windows at the same time. This flexibility helps educators conveniently access all the information they need to create an engaging learning environment.

Full Screen

Multi-window

PIP

Smart, wireless sharing from multiple devices

Powerful Screen Sharing

Users can share up to nine screens simultaneously for maximum productivity in real time. This feature ensure every student is included and engaged as content can be shared both ways between the large display and individual devices. It can be used on IOS, Mac, Windows, Android, or Chrome OS.

Create more engaging lessons with intelligent apps

intelligent App for class

Important apps and tools can be conveniently added to the home screen bar for easy access. Intelligent apps, such as timers and stopwatches, help teachers get creative with their lessons to foster a learning environment that students love.

Better interaction with best-in-class multi-touch
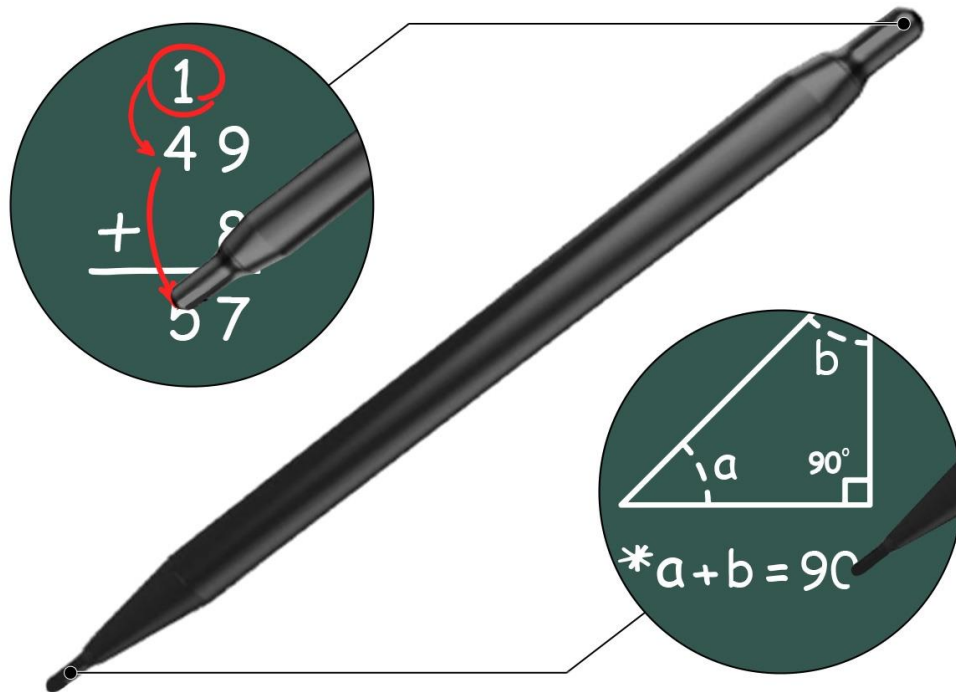

Multi touch for up to 40

Multiple users can write and draw on the whiteboard at the same time with the display's advanced multi-touch capabilities. Up to 40 simultaneous touchpoints are possible, allowing large groups of students and teachers to collaborate and learn together in a fun and natural way.

**Switch pens without changing settings**

Dual pen

Two different writing tools can be used at the same time with the dual pen function. Thanks to the double-sided nib applied, users can effortlessly switch between two different colours on the front and back side of the pen – without needing to change the settings or interrupt their flow.

Lessons start quickly with USB-C

3-in-1 USB-C port

Connectivity is enhanced with 3-in-1 USB-C connectivity, enabling screen mirroring, touch control and external device charging(max. 65W). Educators can simply connect to the USB Type-C port, allowing them to deliver interactive and engaging lessons without any hassle.

Accessible content for any class size

HDMI Out connection

With the HDMI out function, whiteboard screen content can be shared on another larger screen in the classroom. This feature ensures teachers can provide a real-time, interactive experience for students who can easily view the screen's contents regardless of the classroom size or where they sit.
