BUILDING OUR COMMUNITY TOGETHER

Join Us on May 1st!

Dear Neighbors,

One of the most valuable aspects of living in Willow Creek is the connection we share. We are linked not only by our homes but by a collective pride in our amenities, our events, and the lasting friendships we build right here on our streets.

As your Board has shared over the past several months, a primary goal for this year is to foster an even stronger sense of community. Real connection often happens when we work side-by-side. By sharing the effort to enhance our facilities and grounds, we don't just improve our surroundings—we build a deeper sense of joint ownership and pride in what Willow Creek is today and what it can become tomorrow.

SEAHAWKS FUNDRAISER & MEET THE WCSTA BOARD

Friday, May 1 | 7:00 p.m.-10:00 p.m.

Overlook Green

We invite you to join us for an evening dedicated to supporting our Willow Creek Seahawks and connecting with one another. This is a great opportunity to meet your Board members, ask questions, share your thoughts regarding our neighborhood, and support our Seahawks.

We will also be highlighting various volunteer opportunities. Whether you have a few hours a month or a specialized skill to share, we encourage you to sign up for a role that fits your schedule. We especially invite you to involve your children; it is a wonderful way to teach the next generation the value of community service and the satisfaction of a job well done.

We look forward to seeing you and your family on the Green this Friday!

JETT ROAD CLOSURE

With the closure of Jett Road until November, we have to expect an increase in traffic along Willow Creek Drive, Pinefield Rd, and Willow Creek Overlook.

Please allow extra travel time, expect more traffic, take extra precautions, and make note of Seahawks home meet dates and adjust your plans accordingly.

WE LOVE AZALEAS!!

To get the most vibrant blooms and maintain the health of your azaleas, timing is everything. Because they set their flower buds for the following year shortly after they finish blooming, pruning at the wrong time can accidentally "cut off" next spring's show. Encores need more fertilizer to support multiple blooming periods.
