Future Foundation

TOGETHER *for* TOMORROW

2026 Gala Sponsorship Opportunities

TELUS Centre for Performance and Learning
273 Bloor Street West, Toronto
June 18, 2026

Our cause

Imagine a future where every young person can thrive, regardless of background or circumstance. That's the world the TELUS Friendly Future Foundation is building - and we need partners like you to make it possible.

Too many youth face impossible barriers. Nearly one in three can't access the mental healthcare they need. Rising costs have put post-secondary education out of reach for deserving students. Without support, an entire generation of changemakers risks being left behind.

Since 2018, we've been changing that story. As a Canadian registered charity, each year we fund 500+ youth-serving organizations delivering health and education programs, and award bursaries to 500+ students facing financial hardship - empowering them to pursue their dreams and give back.

In 2025, we invested over \$10 million coast to coast. Because TELUS covers our operational costs, 100% of your contribution goes directly to supporting young people.

Together, let's make the future friendly.

Future Foundation

An exclusive evening

Please join us on June 18, 2026 at the Together for Tomorrow Gala, presented by TELUS. You and your guests will enjoy an evening of fine dining, a one-night only concert with world-leading entertainment, live and silent auctions featuring unique experiences, and a multitude of activities to delight and inspire all within the magical setting of TELUS Centre for Performance and Learning, home of the Royal Conservatory of Music on Toronto's famed Bloor Street.

This special evening brings together guests from Canada's leading business, philanthropic, culture and arts communities.

- 5:15pm** Champagne reception and purple carpet
- 6:30pm** Dinner and live auction
- 8:00pm** Concert featuring a musical icon
- 10:30pm** After party and dessert reception

TELUS Friendly
Future Foundation

Investing in tomorrow's leaders, today

Providing bursaries to deserving students so they can pursue their dreams and create a better world.

Adil

Newcomer champion

Post-secondary: Langara College

Studying: Computer Science

Goal: Become first in his family to graduate from post-secondary studies

“When I immigrated to Canada, many people helped me get on my feet. I am passionate about using technology to give back to my community and guide other newcomers so they, too, can succeed.”

Sophia

Inclusive tech trailblazer

Post-secondary: Memorial University

Studying: Mechanical Engineering

Goal: Design and optimize prosthetic limbs

“Studying in a male-dominated field, pursuing my dream to help people has been difficult. But with diversity and inclusion being vital to engineering design, I hope to specialize in biomedical or mechatronics engineering to help create a future where no one is left behind.”

TELUS Friendly
Future Foundation

Helping youth reach their full potential

Creating positive outcomes through our grants

“Hit the Ground Running provides trauma victims, like me, with the ability to communicate with others who have experienced similar circumstances. Not everyone will have the resources to take on the burdens of rehab to recover from their individual traumas. I love that the organization, thanks in part to the TELUS Friendly Future Foundation, helps cover some of the costs associated with getting back to full health. It creates hope for trauma survivors to get back to their best.”

-Michael, trauma survivor, Hit the Ground Running

This program received funding from a TELUS Friendly Future Foundation grant

“When youth have the opportunity to explore, create and lead in STEM, they don’t just change their own futures – they transform communities, society and the planet. With the support of the TELUS Friendly Future Foundation, we are equipping 3,000 Black and racialized youth with equitable access to hands-on STEM experiences, mentorship and career pathways. This investment fuels curiosity, builds confidence and ensures that the next generation of innovators can thrive, shaping a more inclusive and equitable future.”

-Dr. Eugenia Addy, CEO, Visions of Science

This program received funding from a TELUS Friendly Future Foundation grant
