

Pool School

LEARN YOUR POOL WITH CONFIDENCE

One Hour • At Your Home • Hands-On Instruction

New pool? New equipment? Just want to feel more confident taking care of your pool?

Our Pool School is a personalized, one-on-one lesson at your home designed to help you understand your pool and answer all of your questions

DURING YOUR POOL SCHOOL, WE'LL COVER:

Understanding Your Equipment

- How your pool circulation system works
- What each piece of equipment does
- How to operate your pump and timer
- Basic troubleshooting tips

Filter Maintenance

- We'll explain your specific filter type: Typically Sand or Cartridge
- Learn when and how to clean your filter to keep your pool running efficiently.

Water Chemistry Basics

- Understanding chlorine and sanitizers
- Proper water balance
- How to use test strips or a test kit
- When to bring a water sample into our store

Pool Cleaning

- Brushing
- Vacuuming
- Skimming
- Emptying baskets
- Best practices for routine maintenance

Automatic Pool Cleaners

If you have a Polaris or other automatic cleaner, we'll show you:

- Proper operation
- Routine maintenance
- Common issues
- How to get the best cleaning performance

Pro Tips & Tricks

We'll share the same tips our service technicians use to:

- Keep your water crystal clear
- Reduce maintenance time
- Prevent common equipment problems
- Extend the life of your pool equipment

Ask Us Anything! This is your opportunity to ask questions about your specific pool. No question is too small—we're here to help.
