

Pace Pool & Spa Service

Preventative Maintenance Plans

Protect Your Investment. **Prevent** Breakdowns. **Improve** Performance. This is NOT a cleaning service. This is a professional pool system inspection and optimization visit.

Every plan includes a complete visual observation of your pool and equipment to confirm proper operation and identify concerns before they become costly repairs.

BASIC

\$150

Seasonal System Check & Performance Review

- Visual inspection of pump, filter, heater, valves, plumbing & timer
- Confirm proper system operation
- Identify leaks, pressure issues, or unusual sounds
- Minor performance repairs (parts under \$30 – baskets, gaskets, o-rings, etc.)
 - Additional parts charged separately.
- Equipment condition notes & recommendations
- Best for homeowners wanting a professional system check before peak season.

ADVANCED

\$250

Everything in BASIC plus :

- Filter cleaning – cartridge removal & deep clean OR sand filter backwash/renew (based on system)
- Timer & runtime adjustments
- Minor diagnostics of performance concerns
- One-time on-site water test analysis
- Waterline treatment
- Best for improving filtration efficiency and extending equipment life.

PREMIUM

\$350

Everything in BASIC and ADVANCED plus

- Six-month mineral-based algae protection featuring Blue-ray XL
- Enhanced seasonal optimization
- Long-term algae suppression
- Reduced chlorine demand
- Improved water clarity
- Best for maximum protection and worry-free seasonal performance.

Weekly Maintenance FAQ's

Preventative Maintenance Plans

What is a Preventative Maintenance Plan?

Our Preventative Maintenance Plans are designed for homeowners who maintain their own pool but want **professional oversight** throughout the year.

Think of us as your pool's "check-up team." We **inspect, test, and evaluate** your pool system to prevent small issues from turning into expensive repairs.

If you handle the chemicals and routine cleaning but want to make sure your equipment is operating correctly, this is for you.

Is this a weekly cleaning service?

No. These visits may be scheduled annually, bi-annually, or quarterly, and are professional system inspections and performance optimization services. They are designed for homeowners who maintain their own pools but want expert oversight.

Will you balance my chemicals during the visit?

We test and provide professional recommendations. If adjustments are needed:

- We can **add chemicals** during the visit (additional charge), or
- We can **advise you** exactly what to add and how much.

We support whichever approach fits your comfort level.

What are the benefits of preventative maintenance?

Preventative inspections help:

- Catch failing equipment early
- Avoid emergency repairs
- Extend equipment lifespan
- Prevent surface damage
- Reduce chemical waste

Proactive maintenance is almost always less expensive than reactive repairs.

How long have you been in business?

Pace Pool & Spa Service was founded as a family business in **1999**, and it is still a family owned business today!

Are you licensed and insured?

Yes! Pace Pool & Spa Service is fully licensed and insured to perform professional pool maintenance and repair work in Florida. We follow industry standards and best practices to protect your property and investment. **License# RP252554871**
