I Introduction

- I.1. This policy covers 3 of the PACT Schools, ie. Oakwood School, The Laurels School & The Cedars School including the EYFS where applicable (our “Schools”). The registered office for PACT is c/o The Cedars School, Coombe Road, Lloyd Park, Croydon, CR0 5RD.
- I.2. The main aim of this policy is to enable our Schools to manage our records effectively and in compliance with data protection and other regulation. As an organisation we collect, hold, store and create significant amounts of data and information and this policy provides a framework of retention and disposal of categories of information and documents.
- I.3. Our Schools are committed to the principles of data protection including the principle that information is only to be retained for as long as necessary for the purpose concerned.
- I.4. Appendix I sets out the main categories of information that we hold, the legal requirements for certain categories of documents, the length of time that we intend to hold them, and the

reason for this. Where we have decided to keep information longer than the statutory requirement, this has been explained in the table.

- 1.5. Section 2 of this policy sets out the destruction procedure for documents at the end of their retention period. Our DPL will be responsible for ensuring that this is carried out appropriately, and any questions regarding this policy should be referred to them.
- 1.6. If a document or piece of information is reaching the end of its stated retention period, but you are of the view that it should be kept longer, please refer to our DPL, who will make a decision as to whether it should be kept, for how long, and note the new time limit and reasons for extension.

2. Deletion of Documents

- 2.1. When a document is at the end of its retention period, it should be dealt with in accordance with this policy.
- 2.2. Documents may not be deliberately deleted or destroyed in order to avoid disclosure in response to a SAR.

Confidential waste

- 2.3. Any confidential waste must be shredded using a cross-cut shredder in the staff room. Our schools may also periodically arrange for suitable companies to remove confidential waste.
- 2.4. Anything that contains personal information should be treated as confidential.
- 2.5. Where deleting electronically, please refer to our DPL to ensure that this is carried out effectively (although this may be referred to our IT consultant).

Other documentation

- 2.6. Other documentation that does not contain confidential information can be deleted or placed in recycling bins where appropriate.

Automatic deletion

- 2.7. Certain information may be automatically archived by the computer systems, details of which are set out below. Should you want to retrieve any information, or prevent this happening in a particular circumstance, please contact our DPL (although this may be referred to our IT consultant).

Individual responsibility

- 2.8. Much of the retention and deletion of documents will be automatic, but when faced with a decision about an individual document, you should ask yourself the following:
 - Has the information come to the end of its useful life?
 - Do I really need this information at all, or can it be anonymised (eg. do I need to record the ethnicity of each pupil against their name, or do I just need generic data?)
 - Is there a legal requirement to keep this information or document for a set period? (Refer to Appendix I for more information)

- Would the information be likely to be needed in the case of any legal proceedings? In particular, is it potentially relevant to an historic child abuse enquiry? (Is the information contentious, does it relate to an incident that could potentially give rise to proceedings?)
- Would the document be useful for the organisation as a precedent, learning document, or for performance management processes?
- Is the document of historic or statistical significance?

2.9. If the decision is made to keep the document, this should be referred to our DPL and reasons given.
