

Dear Pastor,

Thank you for your prayers and support! The last couple months have been challenging in regard to attendance with many gone over the holidays and others being sick. But through it all, God has blessed and kept us moving along!

It has been exciting to have more people in the church start coming out soul winning with us. We've seen some great fruit from simply going out door knocking. In December, we had a man start attending just from our tract on his door. He started attending church to try to get his life in order thinking he just needed to "turn over a new leaf"! He then found out what he really needed was to be saved, and he trusted Christ as his Savior!

Then, during the last few weeks out soul winning, I've had the opportunity to see seven more souls trust Christ, two of which were the parents of a young man I led to Christ back in October. They were extremely open to the gospel after hearing their good works can't save them. Please pray that we can get them in church and taking the next step of baptism.

We still believe screen door evangelism works and have seen most of our church thus far come from door-to-door soul winning. Please pray that the word of the Lord may have free course here in Rialto!

Sincerely,

Tim Peterson
