FOR WHOEVER RUNS YOUR OWN VEHICLES

Your fleet, in the same portal

Schedule, dispatch and track the vehicles you own beside every trip you charter — one schedule, not two systems.

ALL FOUR PORTALS LIVE AT IPRONTO.COM

WHAT GOES IN

- Your vehicles — type, capacity, accessibility, plate and registration
- Your drivers — licence class and endorsement, medical card, expiry dates
- Availability, service windows and blackout dates
- Maintenance and inspection dates, so a vehicle stops being offered when it is due

WHAT YOU GET BACK

- One schedule showing your own vehicles and your chartered trips together
- A request routed to your own bus first, and out to us only when you have none free
- Live tracking on your own vehicles, on the same map as ours
- Utilisation per vehicle, so you can see what the fleet is actually doing
- Expiry warnings before a licence, medical card or inspection lapses

WHY THIS MATTERS

Most organisations that run their own buses keep two pictures of the same week: a whiteboard or spreadsheet for their own vehicles, and an email thread for everything they charter. Neither one shows the whole day. Put both in the portal and the question “do we already have a bus for that?” has an answer before anyone asks us for a quote.

IT CUTS THE CHARTER BILL

When your own vehicles are visible at the moment a trip is requested, the trips that should ride on them do. We would rather you charter fewer trips and keep all of them than the other way round.

WHAT WE DO NOT TOUCH

Your vehicles stay yours, your drivers stay your employees, and your maintenance stays with whoever does it now. The portal schedules and tracks; it does not take anything over.
