

## **COLD PORCELAIN SPECIAL OFFER!!**

**BUY ONE 250g PACK for GBP £6.95 or**  
**BUY TWO for GBP £10.50**

We've just received a new delivery of cold porcelain paste, a soft, air drying clay which can be used to create flowers (shown above), small figurines and much more. Easy to work with and capable of creating paper-thin petals making your flowers even more life-like than when using other clays.

You can colour the paste with white paint and then, once it's worked through the paste, add a different colour to give an opaque finish to your finished piece. Alternatively you can use powders or paint to add colour to your work.

Order PP.24 for one pack only or PP.24a for the twin pack offer.  
(P&P extra)
