

The Art of the Egg Shell magazine is coming very soon!

In this issue, we look at some of the more traditional techniques in egg art - Pysanky, Batik and Etching, including step-by-step patterns by Brad Foucher, Susan Jones and Rachel Weber in these styles.

Maureen Williams and her sister, Lorna Winch, also include very comprehensive instructions for carving this beauty - a great project for anyone wanting to carve for the first time.

With six patterns in this issue, masses of technical know-how being passed on and some amazing competition entries to look through, I know that you're going to be inspired to try something a little different.

Our featured artists are husband and wife, Oleg Gulyi and Darina Gulya from Ukraine.

Prices for the quarterly magazine are shown right and we do have limited paper copies of back issues available - just get in touch and ask!

Our new series 'Back to Basics' takes a look at cutting techniques and which drill bits to use. (Don't forget I also made a DVD on this subject which can be purchased through my website).

Fancy making a rhea egg lamp? Then check out our pattern for this design.

And with Easter not far off, we have a pattern especially for our younger egg artists to make - a cute owl and pussy cat.

The following prices include p&p:
UK: £8.25 (2nd class post) EU: £10.50
