

Sandmasters, Inc. was founded in 1986 to provide quality installation and refinishing of hardwood flooring.

The associates of Sandmasters take great pride in their work and accomplishments. With an average of over 10 years experience per employee, our company has developed and maintained a high level of quality workmanship.

Providing our customers with exceptional service is our most important goal. Our excellent reputation is the result of many satisfied customers who have put their trust in Sandmasters.

When it comes to hardwood flooring, Sandmasters can supply virtually any type of hardwood, from common species of North America to exotic species from around the world. We only purchase hardwood from the most reputable mills. Much of the wood is available in a variety of grades, widths and unique styles such as hand-scraped, vintage plank and rough sawn.

Custom inlays, borders and medallions can also be added to provide additional interest, beauty or a distinctive flair to your home, business or commercial area.

Sandmasters works with many builders, remodeling contractors and decorators in the greater Milwaukee Metro area. From the selection of your wood flooring to the care and maintenance of your wood floors, Sandmasters can give you advice and products to help keep them looking their best.

Sandmasters' Services

REFINISH • RECOAT • REPAIR
INSTALLATION • MEDALLIONS
BORDERS • CUSTOM INLAYS

In addition to our exceptional service, our computerized scheduling program allows flexibility to accommodate your needs. Sandmasters also uses advanced dust containment systems and is EPA Lead Certified to assure you and your family a clean and safe experience.

FINISHES

One of our most important goals is to provide your new or existing hardwood floor with a durable easy-to-maintain commercial-grade finish. Protecting your hardwood floors with the proper finish and care will ensure that they last a lifetime. Our knowledgeable staff can suggest a finishing system that best suits your needs.

INSTANT CURE SYSTEM

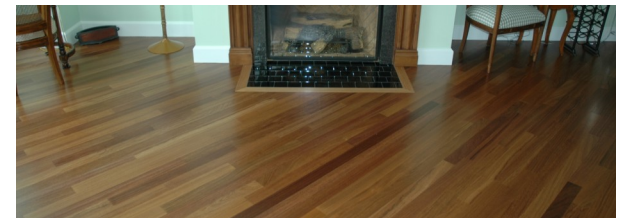

Sandmasters has been finishing wood floors for over 25 years and keeps up-to-date on the latest advances in wood floor finishes. We are proud to offer a revolutionary new technology utilizing ultraviolet light. This process allows the finish to cure instantly with the help of photo initiators and a photochemical reaction that cross-links and hardens the liquid into a durable protective coating. Benefits from this instant cure technology are:

- Finish is extremely durable
- Very low odor ~ environmentally friendly
- VOC compliant
- Immediate cure time (other floor finishes require 10 to 30 days to cure)
- Excellent scratch and impact resistance
- Easy to clean and maintain

Instant cure allows for immediate traffic and placement of furniture, which makes it ideal for retail stores, hospitals, gymnasium floors, hotel lobbies and many other commercial areas.

MAINTENANCE

As your floor begins to show signs of wear, call Sandmasters for a maintenance recoat. A recoat is a one to two day, dust-free process which includes a light buffing, cleaning and application of finish. This process will restore your floors to their original beauty. Waiting until the finish wears through may necessitate a complete sanding and refinishing.

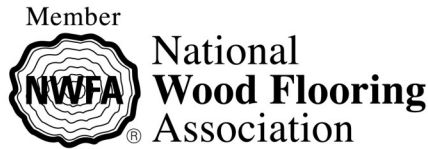

OUR GOAL

It is Sandmasters' goal to be the best hardwood flooring company in the area by consistently providing finished floors of the highest quality.

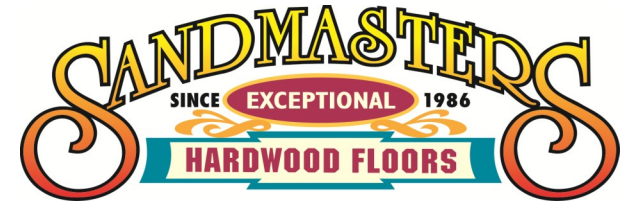

The Company is driven by the needs of the customer and is committed to providing a high level of friendly and respectful customer service. It is with this "Customer Focus" that Sandmasters will continue to grow and be a leader in the hardwood flooring
