

YOU DESERVE TO **KNOW**

HOW YOUR **PROPERTY TAXES** ARE SET

Did you know?

The Average Texas Homeowner Pays

\$3,700

EVERY YEAR In Property Taxes

PROPERTY VALUE

Your county's central appraisal district determines your assessed value every year

TOTAL TAX RATE

Set by local elected officials representing your city, county, school district, and special districts

How Are Your
Property Taxes
Determined?

A SIMPLE CALCULATION

FOR EXAMPLE: \$200,000 Home X \$.025 Tax Rate = \$5,000 Tax Bill

Texas has no state property tax, so your property tax rates are determined entirely by local elected officials.

You deserve to know how these proposed rates will directly affect your tax bill...and in today's digital age, providing feedback to your local governments on such matters is now easier, more convenient, and more transparent than ever before.
