Hi there,

I came across the helpful information you shared for seniors at gcpp.com/health-library and was wondering if you were open to adding new resources to that page.

Choosing the right nursing home is extremely important because it directly impacts the well-being and quality of care for the seniors. A well-selected nursing home ensures that residents receive proper medical attention, emotional support, and a safe environment, promoting their overall health and happiness in their later years. We recently made a guide to help those who are in the process of transitioning to nursing home which includes important things to look for. Check it out:

5 Steps to Choosing the Right Nursing Home - [cutterlaw.com/how-to-choose-the-right-nursing-home/](https://cutterlaw.com/how-to-choose-the-right-nursing-home/)

We put a ton of work into so would love to know what you think. Also, if you think this guide could be helpful for your visitors, would you consider sharing a link to it on your web page? I'm sure you get a lot of requests like this, but I think it may be worth a look.

Let me know your thoughts or if you have any questions.

Have a great day,

Thomas Hall
