Candidate

Name: Jessica Odgers

My interest in Clevelands started when my Mother brought home a 5yr old gelding 'Braithwaite Bentley' when I was a teenager. Ticking all the boxes with fabulous temperament, type and toughness, he soon became my partner in crime trotting around the local villages and around the farm checking sheep with the collie dog. After he sadly passed, we quickly realised finding the next Ben was rather hard, especially with there being so few Clevelands about.

Like with any rare breed, be it the sheep, cattle or the horses, if you don't breed them there won't be any, so we found a yearling filly with the aim to eventually put her in foal and ride. This snowballed over the next 5 years with another mare joining the farm, with our second filly foal born this year and hopefully more to land in coming years.

These horses are a pleasure to work with and I hope that by standing for council I can help promote and preserve these fantastic animals so they are here to enjoy for years to come. I aim to provide another enthusiastic voice to the council as well as providing a different perspective with my background in farm and equine veterinary medicine and pedigree livestock breeding under the Quarrydale prefix.

Dr Jess Odgers BVM&S MRCVS
