Price shown is for Classic Edge 350. See dealer for details.

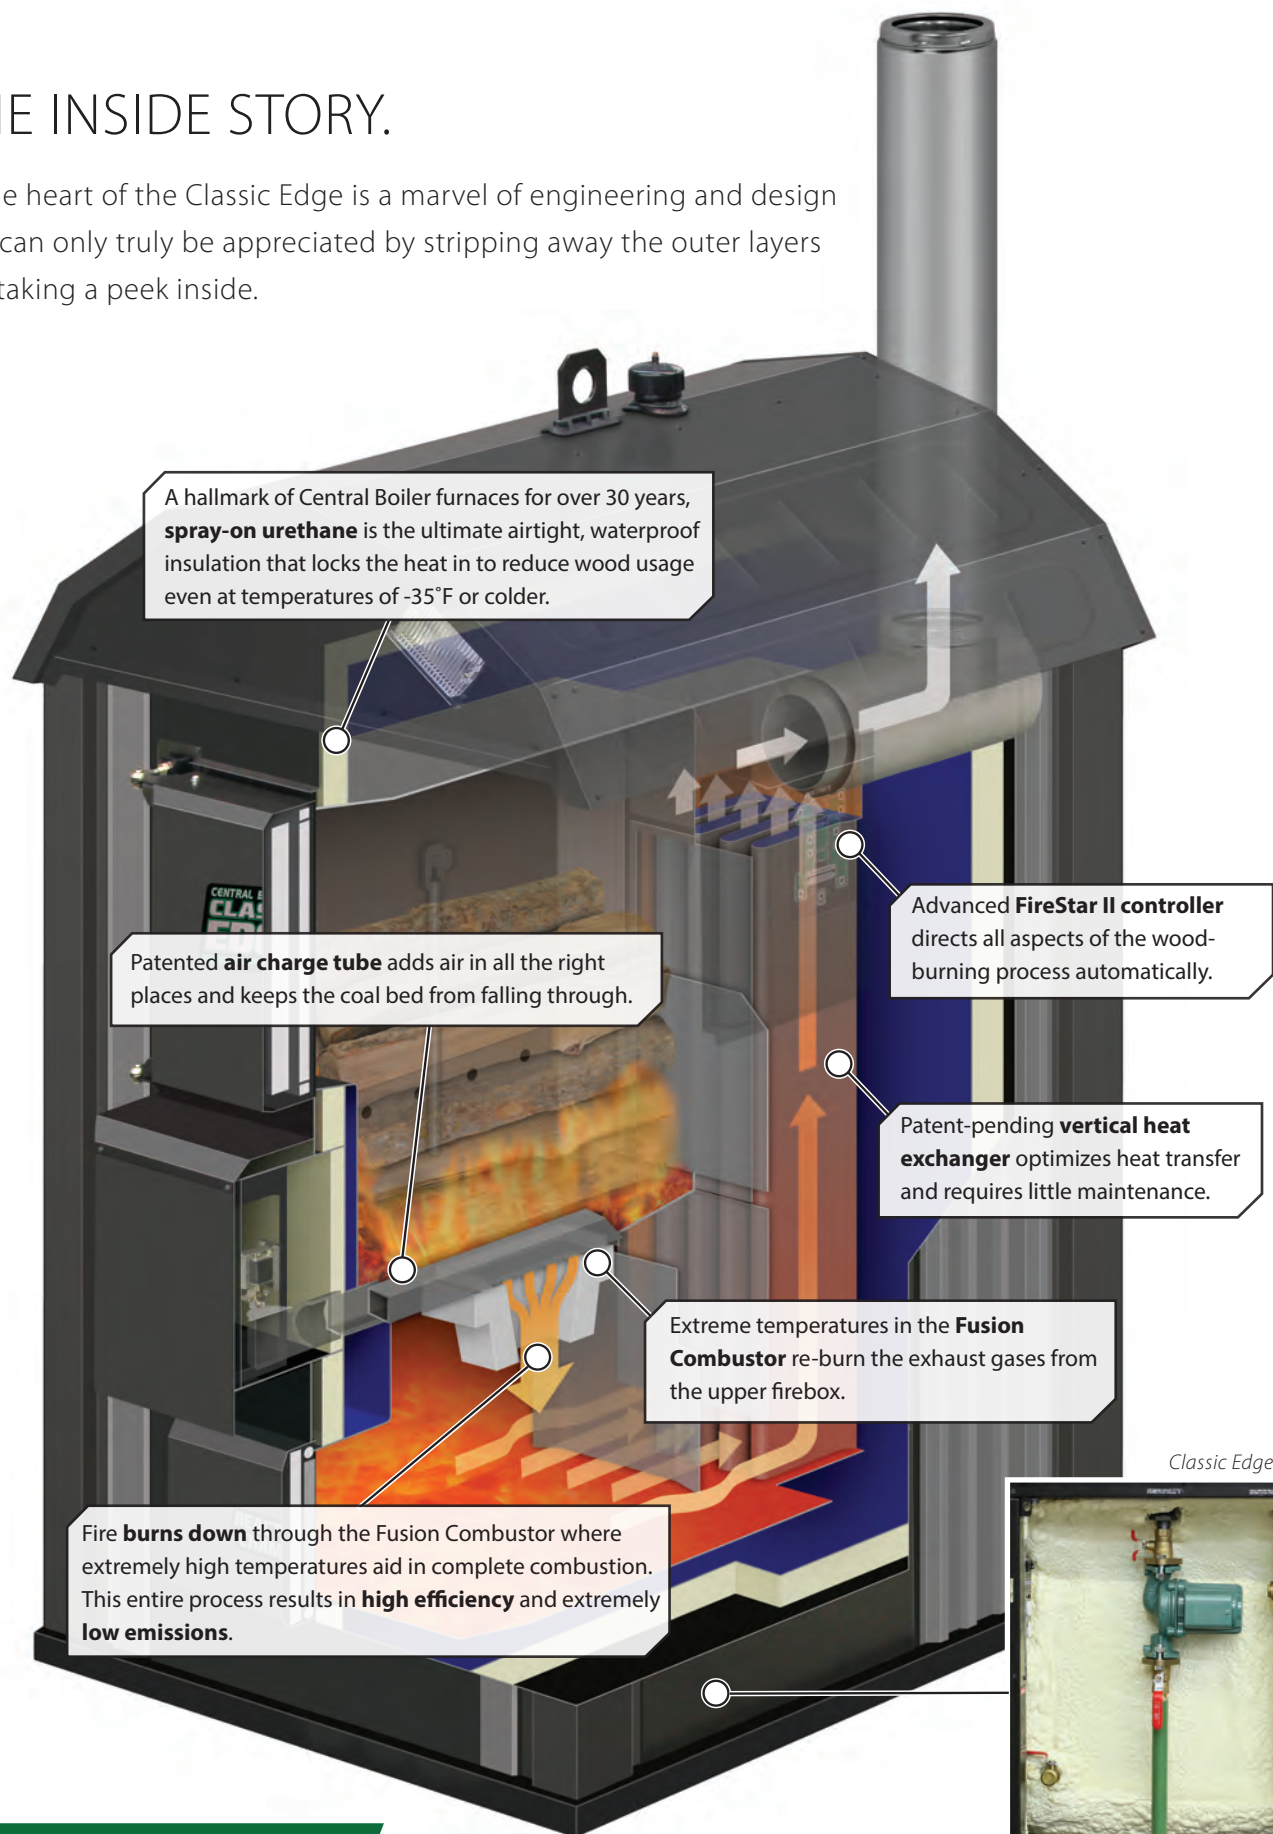

PERFORMANCE AND VALUE BY DESIGN

From the leader in outdoor furnaces, introducing the revolutionary new patent-pending, **certified**, clean-burning **Classic Edge**

THE INSIDE STORY.

At the heart of the Classic Edge is a marvel of engineering and design that can only truly be appreciated by stripping away the outer layers and taking a peek inside.

Classic Edge 350 shown

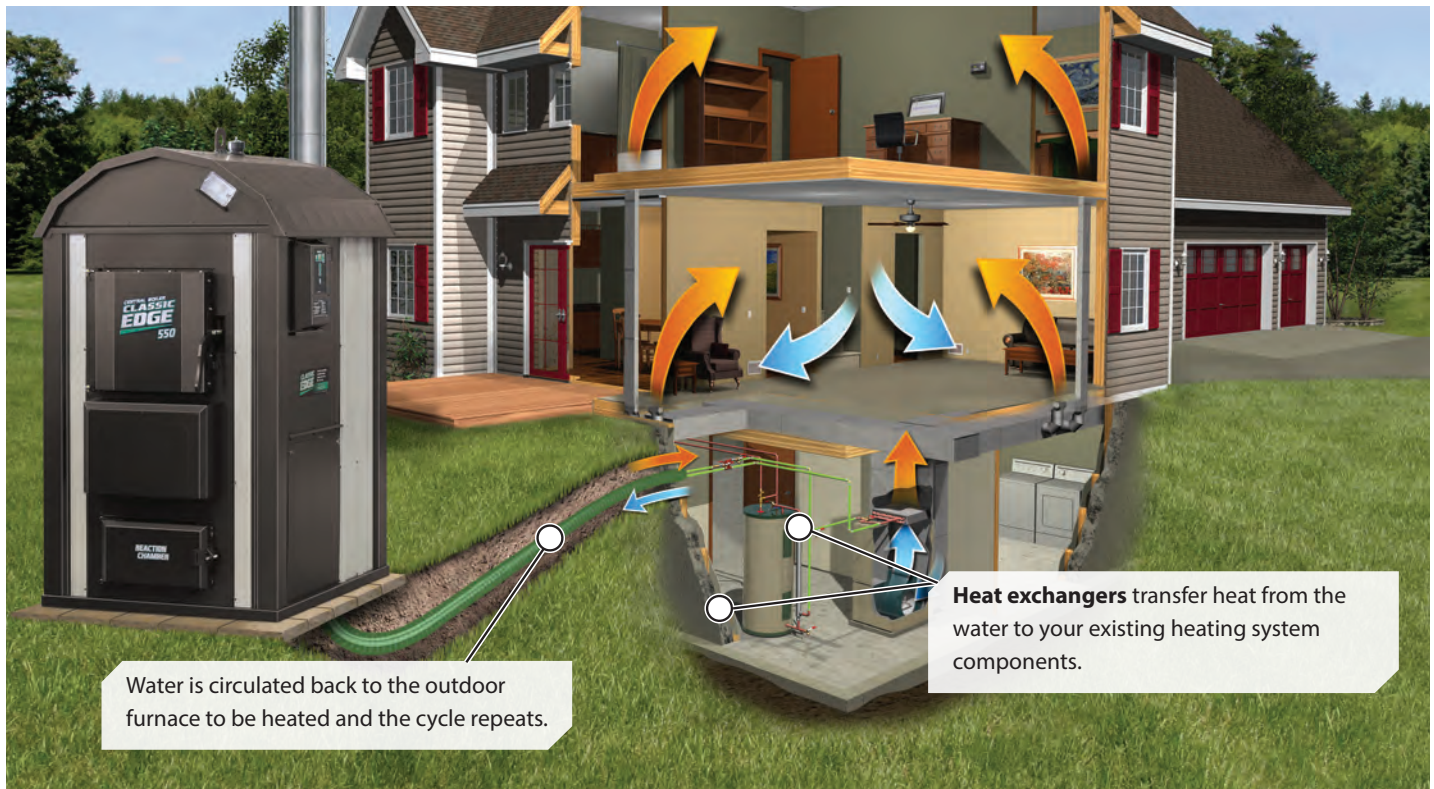

Easily-accessible pump and piping area provides ports for a supply and return line.
*Fittings are available for installing additional pumps.
Pumps and fittings sold separately.*

INSTALLATION IS A BREEZE.

Connect the piping and heat exchangers to your existing heating system and the Classic Edge is ready to go to work.

Installing your Central Boiler outdoor furnace is easier than you might think. Many customers choose to install their own furnace because the installation can be easily completed using the installation manual. Authorized Central Boiler dealers have all the supplies and accessories you need for installation and maintenance. All of our dealers can provide you with information regarding your installation, and some dealers can even handle the entire installation for you.

STAYING CONNECTED.

Stay connected to the furnace that saves you money on your heating bills from almost anywhere in the world. Adding the FireStar XP wi-fi module keeps you in constant contact with your Central Boiler furnace if you're just across town having dinner or half way around the world enjoying your vacation on the beach.

View operational information and receive text alerts on your smartphone.

Phone not included.

ADVANCED OUTDOOR FURNACE MONITORING SYSTEM

The optional FireStar XP is easy to install and configure.

Wireless outdoor version shown. Also available as desktop or wall-mount version.

See your dealer or visit website for details.

EVERYTHING AN OUTDOOR WOOD FURNACE SHOULD BE.

From an engineering standpoint, the Classic Edge's revolutionary new patent-pending design delivers better efficiency and more heat output than traditional wood heating, all in an easy-to-operate and maintain package. From an aesthetic standpoint, the Classic Edge is made with the same quality and attention to detail that Central Boiler has been known for for over 30 years. From a practical standpoint, the Classic Edge is the perfect combination of performance and value.

IT'LL BE AROUND FOR A LONG TIME SO IT SHOULD FIT IN.

Since your Classic Edge will be a fixture for many years to come, you can choose the color combination to fit seamlessly into your landscape. Go bold with Realtree® Camo and bronze, or make a statement with charcoal, taupe or green and bronze. The choice is yours.

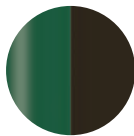

COLOR OPTIONS

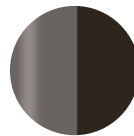

Taupe/Bronze

Realtree®
Camo/Bronze

Green/Bronze

Charcoal/Bronze

Due to the printing process, colors are approximate. We recommend visiting with your dealer to see actual models for better color representations.

The Classic Edge 350, 550 and 750 are U.S. EPA Certified.

*Base price in U.S. dollars for a Classic Edge 350 that excludes tax, freight, dealer setup and system components. Price is for a limited time and may vary. See your dealer for details.

Operating an outdoor furnace may not be suitable to some individuals' abilities or lifestyles. Be sure to review the Owner's Manual for the furnace with your dealer. Ask your dealer about Outdoor Furnace Best Burn Practices. See Owner's Manual for proper chimney height and installation. Minimum chimney height is determined by proximity to other buildings. Consider location and direction smoke may travel with prevailing winds before installing your furnace. Content of this publication is information in possession of Central Boiler at the time of the design of this publication and may not represent what was previously manufactured.
