Dear, Just Moms PROGRAM

In the Dear, Just Moms Program, we are on a mission to educate, empower and uplift mothers from all walks of life.

We firmly believe that every mom deserves access to essential resources that can enhance their lives and the lives of their children. That's why we have made the commitment to invest \$5,000-\$10,000 per year in each mom we support. In this post, we want to share the driving principles behind this investment and the core areas where we allocate these funds.

1. Healthcare - A Fundamental Right:

Healthcare is a fundamental right, and it should be accessible to everyone, especially mothers who often prioritize the well-being of their families over their own health. Through our investment, we provide moms with access to Direct Primary Care (DPC) services. By doing so, we ensure that they receive quality medical care without the financial burden that often accompanies it.

2. Mental Health Services - Supporting Emotional Well-being:

Motherhood can be incredibly rewarding, but it also comes with its unique set of challenges. Mental health is just as important as physical health, and our investment includes access to mental health services. We believe that addressing the mental well-being of moms is vital for their overall happiness and the well-being of their families.

3. Food Security - Nourishing Bodies and Minds:

Proper nutrition is the cornerstone of good health. To support moms in providing nutritious meals for their families, we allocate funds for healthy food through Farm Fresh Weekly CSA Baskets to their door. The Well Program

This helps ensure that moms have access to quality groceries and can provide their loved ones with the nourishment they need to thrive.

4. Education - Unlocking Opportunities:

Education is a powerful tool for personal growth and economic empowerment. We understand that moms often need flexibility in their schedules to balance family responsibilities. That's why we provide access to education that enables them to learn remote work skills. By acquiring these skills, moms can access better employment opportunities, increase their earning potential, and create a brighter future for their families.

5. Community - The Power of Connection:

We believe that no mother should journey alone. Community support is an essential part of our investment. We foster a sense of belonging, encouraging moms to connect with others who share their experiences and challenges. Through community-building activities and networks, moms can exchange knowledge, offer emotional support, and find strength in unity.

Education

WHAT WE OFFER

Invest in yourself and your future with our support, as we believe every mom deserves the opportunity to thrive.

The W.E.L.L: Women Evolving & Learning Legacy:

The Well, in ancient times, served as a symbolic and often literal center of the Community, representing a vital source from which the community obtained the essential sustenance of life: water.

The W.E.L.L is a vibrant, supportive community dedicated to uplifting women on their entrepreneurial journeys.

Our mission is to inspire confidence and foster business acumen among women from diverse backgrounds, empowering them to pursue their entrepreneurial dreams. By offering a blend of educational resources, skill-building workshops, and one-on-one mentorship, we equip women with the tools necessary to navigate the complexities of starting and growing a business.

At the heart of The W.E.L.L is the belief that entrepreneurship is more than just a career path; it's a journey of self-discovery, resilience, and empowerment. We understand the unique challenges women face in the business world, including gender biases and limited access to funding. That's why our community focuses on creating a safe, inclusive environment where members can learn from each other, share their experiences, and build lasting connections.

The W.E.L.L is more than just a group; it's a movement. We're committed to breaking down barriers, challenging the status quo, and creating a world where women can confidently step into entrepreneurship, supported by a community of like-minded individuals. Join us, and let's embark on this entrepreneurial journey together, step by step, towards success and empowerment.

HER STORY

Bethany

Bethany was one of the inspirations and advisors that led to the start of Dear, Just Moms. Her story, her struggle, and even Her victories aided in who we as a company are striving to become. Here is her story.

My single mother journey started when the moment arrived to release the past and embark on the path of divorce from my ex-husband, it became evident that prioritizing the well-being of our children, as well as their physical and emotional health, was important. However, faced with the challenge of navigating this new chapter without a college degree or substantial real-world work experience, the prospects of independently supporting three toddlers seemed like a daunting endeavor. With only one of my little ones prepared for elementary school and the expensive costs of daycare services, I found myself at a crossroads.

With careful consideration, I made the choice to return to my parents' home and live in the 2-bedroom ADU they had on their property. This decision marked the beginning of a journey to create a better future for my family. The world, though, presented its own set of obstacles for me, a single mother, with responsibilities ranging from household bills to escalating interest rates. The crazy costs of housing, whether in the form of rent or mortgages, posed a challenge. Meanwhile, rising prices in important items like food and gasoline only added to the weight of my responsibilities. Perhaps most significantly, the cost of quality childcare was out of reach, leaving it increasingly difficult for me to pursue education or establish a sustainable career path without the huge struggle of what to do with my children.

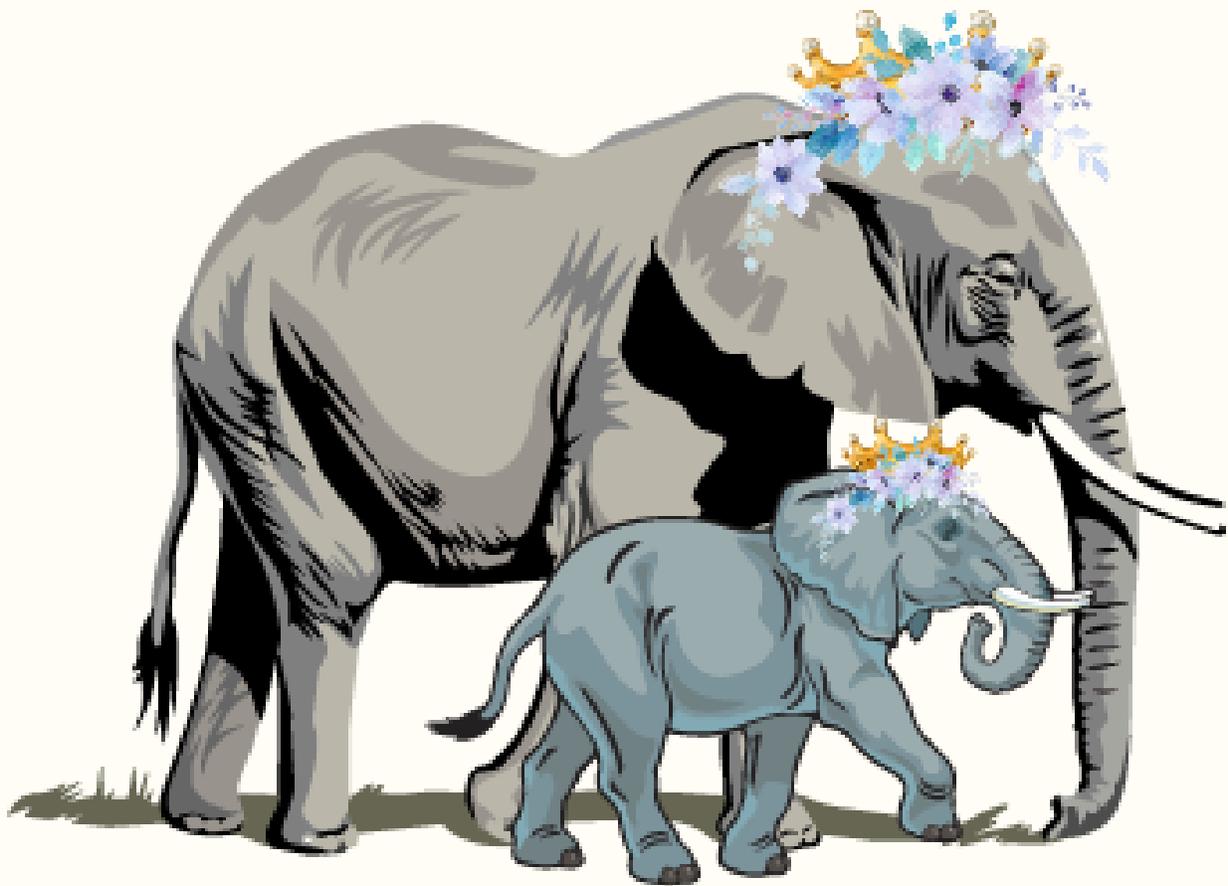

I find myself still striving to forge a meaningful career while also fulfilling my role as a mother. A goal of mine is the ability to provide my children with a secure environment, allowing them to have a mother that is home while I also being the sole provider. The safety and development of my children will always guide my choices.

As I navigate this new life of single motherhood, I am determined to rise above the challenges in front of me. My journey is not just one of survival but also of empowerment as I work tirelessly to create a sustainable future for my family. Through perseverance and dedication, I strive to demonstrate to my children the importance of resilience, ambition, and the enduring love that binds us together.

Dear , Just Kids

PROGRAM

We are excited to share with you the essence of the Just Kids Program, designed with the holistic development of children at its core. Our program is structured around three pivotal areas, each carefully chosen to nurture and empower the young minds entrusted to us. These areas are Education, Mentorship, and Community, working together to provide a well-rounded experience that supports not just academic growth but personal development as well.

1. Education:

Entrepreneurship and Confidence Our educational framework is built to inspire not just academic achievement but real-world skills and self-assurance. We focus on entrepreneurship and confidence-building, aiming to equip our children with the mindset and abilities to navigate life's challenges creatively and resiliently. Through interactive lessons, project-based learning, and practical experiences, children learn the fundamentals of entrepreneurship such as problem-solving, financial literacy, leadership, and innovation. Our goal is to instill a sense of confidence in their own abilities, encouraging them to think independently, embrace their creativity, and pursue their passions with determination.

2. Mentorship:

At the heart of our program is a strong mentorship component, where children are matched with mentors who provide guidance, support, and inspiration. These mentors are carefully selected for their expertise, empathy, and commitment to making a positive impact on young lives. Through regular one-on-one sessions and group activities, mentors help children set and achieve personal goals, overcome obstacles, and build social and emotional skills. This personal connection ensures that each child receives the encouragement and motivation needed to grow and succeed.

3. Community:

Understanding the importance of a supportive environment, our program emphasizes community building. We foster a sense of belonging and mutual respect among children, families, and staff, creating a warm and welcoming atmosphere where everyone feels valued. Through community service projects, group activities, and family engagement events, we encourage children to contribute positively to their communities and develop a sense of social responsibility. This communal spirit not only enhances their personal development but also strengthens the bonds between children, their families, and the wider community.

The Just Kids Program is more than just an educational initiative; it's a commitment to nurturing the next generation of leaders, thinkers, and innovators. By focusing on entrepreneurship and confidence, mentorship, and community, we aim to provide children with the tools they need to thrive in all aspects of their lives.

We look forward to embarking on this exciting journey together and to the incredible achievements our children will surely accomplish.
