

State-of-the-art solutions with Advantech and ChromeOS

Say goodbye to glitches with the reliable, industrial grade but still stylish hardware from Advantech and the fast, secure, and easy-to-manage platform from ChromeOS for your kiosks and digital displays. Combined, this products deliver a great experience for those behind the scenes and in front of the screen.

There's no room for error with your kiosks and digital signage. If screens freeze or fail to load the right content, it can cost your employees time and deteriorate customer trust.

Leave slow, costly, and hard-to-manage devices behind and modernize your business with Advantech's stylish and handy hardware combined with the speedy and cloud-based simplicity of ChromeOS.

Advantech and ChromeOS – a partnership built for your success!

Reduce maintenance and increase reliability.

ChromeOS is quick to deploy, downloading policies and apps directly to devices, with automatic updates ensuring long-term reliability. Advantech's industrial-grade products minimize downtime, featuring intelligent cable management and optional I/O hubs for optimized sales support.

Keep devices secure and data safe.

ChromeOS provides regular security updates and built-in protection by blocking executable files that can hide malware and partitioning OS files to prevent unauthorized changes. Advantech offers products with vandalism-resistant designs, lockable back covers, and IP65-certified front panels.

Easily monitor and manage it all, remotely.

The cloud-based Google Admin console comes with 600+ configurable policies for remote management. Easily check the status of devices, receive proactive alerts, and remotely reboot if errors occur. Plus, you can check system health and control settings from anywhere.

Take a more sustainable route.

Reduce IT overhead, deployment time, and maintenance costs with ChromeOS flex, lowering energy consumption by 19%*. 10 years of automatic updates help cut e-waste and total ownership costs. Combined with Advantech's fanless products and carbon-reduction goals you will enable your sustainable, intelligent future.

Advantech hardware, ChromeOS software – the best of both worlds

Why should you be satisfied with anything less than the best? By choosing Advantech hardware with ChromeOS operating system, you choose the best of both worlds. Whether you choose a digital signage display or a QSR kiosk, this partnership is not only here to fulfill but to surpass your requirements.

ARK-1125H - Ultra-Slim Fanless Embedded Computer

- Ultra-slim
- Fanless
- Extended operating temperature
- Low-power consumption

DS-085 - Ultra-Slim Digital Signage Player

- Powerful graphic engine
- Cable-less design
- Powered by 11th Gen Intel® Core™ i3/i5/i7 and Intel® Celeron® 6305E processors

DS-410- Palm-Sized Mini PC

- Digital signage player
- Aluminum die-cast design
- For hospitality and signage applications

DS-202 - Intel SDM Player with 4K Output

- Compact player
- Supports real 4K resolution
- Fanless design for quiet operation in commercial spaces

PPC-3150SW: Fanless Widescreen Panel PC

- Size: 15.6"
- Fanless design with low power consumption
- IP66-rated front panel
- Supports dual displays & VESA 75

UBX-110K: a 4K UHD Fanless Edge Computer

- Built-in an Intel® N97 or Core™ i3-N305 processor
- Built-in a TPM 2.0 chip for data encryption enhancement
- Supports triple displays

USC-360H/J: All-in-One POS System

- Size: 15.6"
- Ultra-slim
- Wide range of peripherals
- Supports integrated or separate 2nd display

UTC-100 Series: All-in-One Touch Computers

- Sizes: 15.6", 21.5" and 23.8"
- Available models: UTC-115G, UTC-120G, UTC-120K, UTC-124G3, UTC-124I
- Ultra-slim & lightweight

UTC-320K: All-in-One Touch Computer

- Size: 21.5"
- Built-in Intel® Atom N97/ Core™ i3-N305 processors
- Supports portrait and landscape
- Supports TPM 2.0

UTC-520F/J: All-in-One Touch Computer

- Sizes: 21.5"
- Aluminum extrusion design
- IP65-rated front panel
- Fanless
