WHO WE ARE

Suomi Holiday OY was founded in Finland in 2009. We began with cottage rentals across the country, working closely with accommodation providers. Over the years, we have explored Finland extensively, gaining deep local knowledge of its nature and waters.

Fishing in Finland

In 2019, responding to requests from our guests, we launched our Fishing in Finland programme.

Yulia completed professional fishing guide training in Parainen, while **Igor** explores Finnish waters, develops fishing routes, and helps anglers choose the best destinations based on their goals and experience.

Equipment & Organisation

We operate a fleet of fully equipped **fishing boats** delivered directly to your accommodation. We also provide **fishing gear rental** and, together with accommodation owners, organize dedicated **fishing camps** for private guests, groups, families, and fishing clubs.

Pricing*

Prices in this catalogue are indicative. The final cost is calculated individually depending on group size, season, length of stay, and selected services. The more people in a group, the lower the price per person.

We create well-planned, personalised fishing experiences across Finland tailored to your needs and expectations.

Classic **Saimaa-type lake channels** connecting large water basins. Pike concentrate along current edges, narrow passages and structure, which are typical feeding zones in the lake system.

- Strong post-spawn feeding in warm shallow water (mid May - June)
- Warmer shallow water attracts both pike and baitfish
- High density of structure in a compact area, predictable fish locations (straits, edges, vegetation)
- Countless bays, shoals and structure - ideal ambush habitat

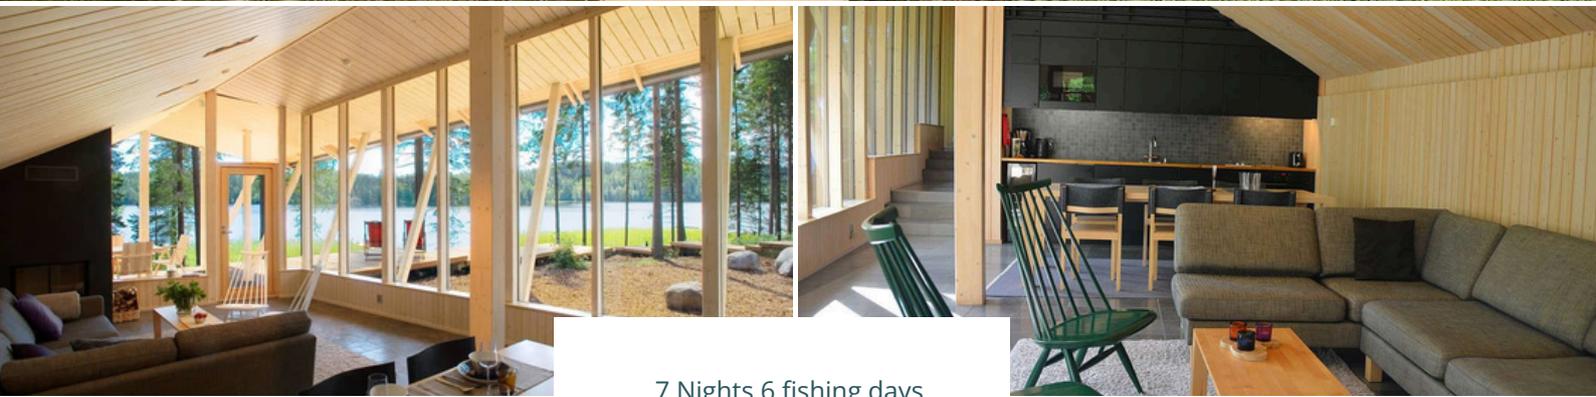

260 km from Helsinki.

Resort with restaurant, swimming pool, and full infrastructure.

ACCOMMODATION

7 Nights 6 fishing days

~ €1120 / person*

based on 3-person accommodation

Vast open waters, narrow straits, countless islands, and deep basins. Fishing spots range from shallow shoreline areas to deep-water zones.

Fishing boats with engines of at least 20 hp are strongly recommended, equipped with sonar and modern electronics. This allows you to explore different areas and locate fish in reeds, midwater, or deep zones.

Summer is the prime season for **perch and zander**. Pike is less active but remains a frequent and welcome catch.

300 km from Helsinki.

ACCOMMODATION

7 Nights 6 fishing days

~ €1400 / person*

based on 4-person accommodation

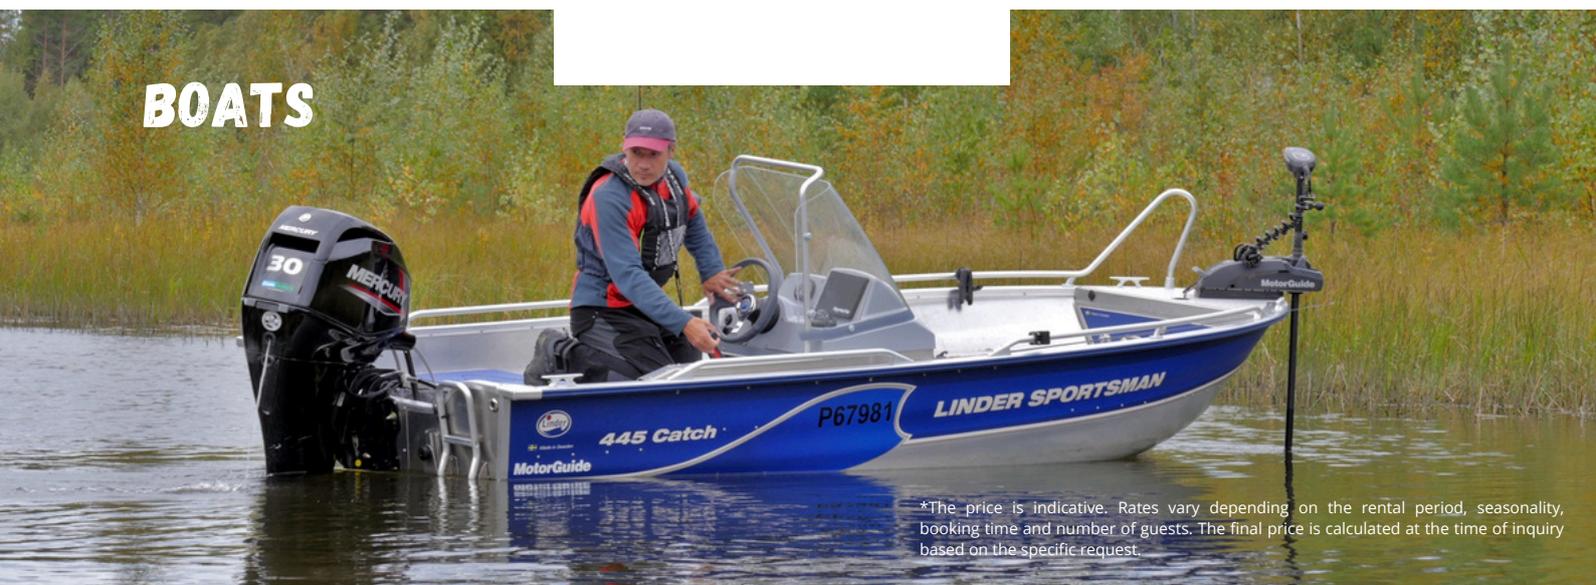

Villas (135 - 175 m²) with **4 bedrooms**, a sauna, and full equipment. Each villa is located on the shore of Lake Saimaa with a private beach and private dock. Some villas have hot tube.

Guests have access to a sports and playground, bikes.

Vast system of islands, straits and drop-offs - prime zander holding areas.
Clear water with depth variation creates stable feeding zones.
Abundant underwater structure: rocky ridges, ledges, deep flats.

Summer is a **zander fishing time**:

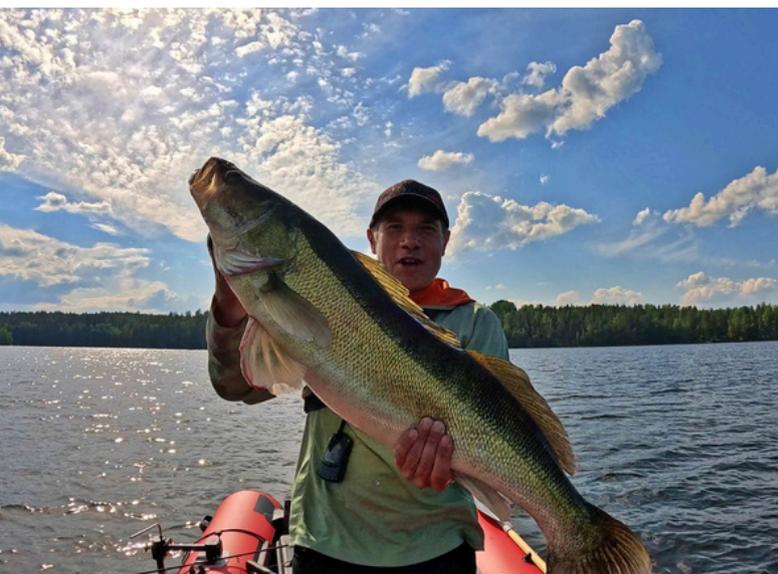

- Water warms to 18-24 °C - peak feeding period
- Baitfish concentrate in shallows and along drop-offs
- Long daylight and warm nights increase feeding activity

Fishing features:

- Predictable fish locations on structure and edges
- Effective methods: trolling and jigging
- Reliable summer activity and good fish density

310 km from Helsinki.

ACCOMMODATION

7 Nights 6 fishing days

~ €1250 / person*

based on 4-person accommodation

5 lakeside cottages (130 m²) with **3 bedrooms**, 2 wc, panoramic living room, kitchen, and sauna.
