Hiring Committee  
Katy Independent School District  
Katy, Texas

Dear Hiring Committee,

I am excited to apply for a 5th or 6th-Grade Math teaching position with Katy ISD. As a certified EC–6 educator with a strong background in both elementary and middle school instruction, I bring a commitment to student growth, TEKS-aligned teaching, and a design-focused approach that supports visual learning.

During my time at Pin Oak Middle School, our 6th-grade math team increased STAAR Masters performance from 25% to 46%. This improvement was the result of intentional lesson design, strong visual supports, targeted small-group interventions, and the use of recap videos and anchor charts to reinforce learning.

With a Master's Degree in Media Design, I develop instructional graphics that help students understand abstract math concepts more easily. I also maintain TEKS-aligned digital resources and instructional videos that extend learning beyond the classroom.

As a resident of Katy, I am eager to serve my community and contribute to the district's excellence. I welcome the opportunity to join a collaborative math team and support student achievement.

Thank you for considering my application.  
Warm regards,

Gregory J. Sandoval
