PREPARE TO BE DELIGHTED AT THIS YEAR'S FUSION GALA – AN EVENING IN VIENNA!

Thank you for your consideration of sponsorship of the **2026 Fusion Gala: An Evening in Vienna** in support of Cystic Fibrosis Canada. Over the past 23 years, the Fusion Gala has successfully raised over **\$6.2 million** for cystic fibrosis (CF) research and care. This would not have been possible without the support of amazing donors, sponsors, partners, and guests.

This year, you and your guests will enjoy an evening of dining, dancing, and fundraising, with lively entertainment and the chance to participate in our exceptional silent and live auctions, as well as our signature Key to a Cure Auction. **We hope you will join us!**

CYSTIC FIBROSIS CANADA

Cystic fibrosis (CF) is the most common fatal genetic disease affecting Canadian children and young adults. CF causes various effects on the body, but mainly affects the digestive system and lungs. The degree of CF severity differs from person to person; however, the persistence and ongoing infection in the lungs, with destruction of lungs and loss of lung function, will eventually lead to death in the majority of people with CF. At present, there is no cure.

Cystic Fibrosis Canada is a global leader in the search for a cure for CF, investing more in life-saving research and clinic care than other non-governmental agency in Canada to help the over 4,400 Canadians living with the disease.

Typical complications caused by CF are:

- Difficulty digesting fats and proteins
- Malnutrition and vitamin deficiencies because of inability to absorb nutrients
- Progressive lung damage from chronic infections and aberrant inflammation
- CF related diabetes
- Sinus infections

Without the generous support of sponsors like you, Cystic Fibrosis Canada's tremendous accomplishments would not be possible.

RESEARCH

Cystic Fibrosis Canada is proud to fund scientists who are searching for a cure and better understanding of the disease. These researchers are committed to discovering new therapies and interventions to improve the health and wellbeing of patients.

ADVOCACY

Cystic Fibrosis Canada is raising the voice of and enhancing the quality of life for Canadians with cystic fibrosis by supporting advocacy initiatives for universal newborn screening and access to life-changing medication.

REGISTRY

Cystic Fibrosis Canada manages and operates the Canadian CF Registry – a comprehensive database containing clinical data on Canadian CF patients spanning nearly five decades. It is the only source of national CF clinical information used to conduct research, examine trends, and support clinical care.

HEALTHCARE

Cystic Fibrosis Canada supports high quality care for people with cystic fibrosis at 40 clinics across the country, through the continued development of national Canadian standards for CF care to ensure consistency and quality of care regardless of where someone lives.

SPONSORSHIP OPPORTUNITIES

SOLD

Presenting Sponsor

- Two reserved tables for 10 guests with preferred seating.
