CookieCutter.com

2022 CATALOG

President's Note

On behalf of myself and our entire team here at Cookiecutter.com, we hope this catalog finds you and your families, businesses and employees well.

After 29 years in the cookie cutter business, we certainly can say that it's been the most interesting and challenging last 18 months that we have ever experienced.

We have a great team of manufacturing, fulfillment, office, and creative professionals who do their best every day, and go above and beyond for our customers. We pulled together and kept things going to provide you the best quality and service possible.

Being centrally located in the United States, our ground shipping transit times are reduced to only 2-3 days for most locations, and 2-4 days for other locations. We are proud of our fast-shipping times. This, coupled with our low minimums, large selection, and capability of manufacturing thousands of cookie cutters a day, make us the perfect fit for any size business.

Customer service is always of the utmost importance to us. When you call, you will rarely get an answering machine. We do the best we can to take your call personally and respond to any questions, concerns and needs you might have.

This past year, we created over 100 new and trendy designs. We always welcome our customers ideas for new shapes. This year, we have another 100 designs on the drawing board and are excited to introduce them to you!

This year, we were fortunate to expand into a 2nd building right next door. This has enabled us to have manufacturing in one building and fulfillment in the other building. So far, this is working great and has increased our efficiency and ability to expand our product line.

We are looking forward to serving you this year and sincerely wish you the best in your personal and business endeavors.

Sincerely,
Joel S. Hughes
President and CEO

High-Quality Cookie Cutters with sizes ranging from 1 in to 8 in and cutting depths of 1/2 inch for Minis and 1 inch for Regulars.

We manufacture our cookie cutters from tin-plated heavy-duty tested and certified food-grade steel. Each cutter has a rolled edge that makes it easy to grip without hurting your hands, a sharp bottom for precise cutting for remarkable results, and has been spot welded to last many years.
