THE SEMINAR PROGRAM

Practical knowledge.
Real solutions.
Lasting connections.

Friday 12 March 2027

Business Management Sessions

Ideal for automotive business owners and management staff looking to strengthen their business management skills, gain valuable industry insights and explore strategies to support business growth.

Available as a standalone session. \$180 per person.

Saturday 13 March 2027

Transmission Sessions + Exhibition + Network Event

Stay ahead of the curve with the latest developments in automotive transmissions, technology and repair techniques. Expand your knowledge, gain valuable insights into transmission servicing and diagnostics, and discover emerging innovations shaping the future of the automotive industry.

At the Network Event, explore the latest transmission parts, tools, equipment and solutions from leading suppliers, connect with industry experts, and build valuable relationships with fellow automotive professionals.

Take advantage of exclusive deals and discounts at the Exhibition.

Sunday 14 March 2027

Transmission Sessions

Continuing from Saturday's sessions, the Seminar continues to delve further into the latest advancements to enhance your skills and knowledge and explore new approaches to transmission diagnostics.

Monday 12 March 2027

Post Seminar Workshop: HP Tuners for Transmissions

Presented by **Tony Gonyon**, the Post-Seminar Workshop builds on Tony's Seminar Sessions, exploring electronic transmission control and calibration to improve shift quality, shift timing and torque converter operation. The aim is to enhance performance, ensure smoother operation and extend transmission service life. This classroom-based presentation covers a range of 6 to 10 speed automatic transmissions, examining various designs and configurations.

LIMITED PLACES - REGISTER NOW!

\$180 per person
