FOR CIOS, CTOS & IT DIRECTORS

Your teachers are already using AI. Can you prove they were trained to use it safely?

AI Safe-Use Certified trains every staff member on your district's AI rules before spring semester and gives IT the record to prove it.

60%
of teachers used AI for work last school year
Gallup–Walton, 2025

68%
had **no AI training** from their school or district
Gallup–Walton, 2025

75%
of district tech leaders are very concerned AI enables new cyberattacks
CoSN, 2026

0 of 10
IT leaders we surveyed keep a complete per-person AI training record
MobileMind IT leader survey, Oct 2026

It's already happening

A district AI chatbot collapsed amid data allegations. LAUSD shut off its $3M "Ed" chatbot after a whistleblower alleged student data was sent with every prompt and processed offshore (2024).

Leaders mishandled degrading AI images of students. Lancaster Country Day (PA): a tip went unreported for months. Once police were involved, the head of school and board president departed and parents sued (2024).

A staff member used AI to fake a principal's voice. Pikesville High, Baltimore County: a deepfake made on district systems put the principal on leave and led to the athletic director's arrest (2024).

What untrained AI use costs the district

- **Student data leaves the building.** Names, grades and IEP notes pasted into personal AI accounts are out of your control the moment they're sent.
- **FERPA and state privacy exposure** lands on the district, not the vendor and not the teacher.
- **No evidence when it's asked for.** A policy staff never trained on won't satisfy your board, a parent's attorney or the state.
- **AI-powered phishing and impersonation** target staff who aren't aware of voice clones.
- **Questions are coming:** 7 of 10 IT leaders we surveyed have already been asked how staff AI use is kept appropriate.

The fix: AI Safe-Use Certified

Self-paced, 60–90 minutes, built on **your** AI policy and approved-tool list. No PD days, no subs.

1. What Never Goes Into AI
2. Approved Tools vs. Personal Accounts
3. Check It Before You Use It
4. Deepfakes, Voice Clones and AI Phishing
5. Disclosure, Integrity and Records
6. When Something Goes Wrong

Every staff member is certified. IT gets the proof.

- ✓ Annual AI policy acknowledgment per person
- ✓ District roster: certified / not certified
- ✓ Board-ready completion report

NOVEMBER
Scope it; we load your policy and approved tools

BEFORE BREAK
Assign to all staff

JANUARY IN-SERVICE
Staff certified

SPRING SEMESTER
Roster in hand before AI use ramps up

Get every staff member certified before spring semester.

Priced per staff member. Request a quote for your district.
