EXHIBITOR	SERVICES PROVIDED
3E 3207 Grey Hawk Court Carlsbad, CA 92010 USA 760-602-8700 www.3eco.com	3E is an AI-driven software and data company that helps organizations navigate regulatory complexity, reduce risk, and bring compliant, safer products to market faster. For hazard communication teams, 3E offers flexible authoring: 3E Generate for in-house SDS and label authoring, 3E ERC+ for embedded regulatory content and SDS publishing inside SAP, and 3E Authoring Services for expert-authored documents at scale. Whatever your setup — software, SAP-embedded, outsourced, or a mix — 3E has a right-fit model that scales with your program. Every option draws on more than 35 years of curated global regulatory content and expert validation, serving 5,000+ customers worldwide.
EXHIBITOR	SERVICES PROVIDED
AIHA Registry Programs 3120 Fairview Park Drive, Suite 360 Falls Church, VA 22042 USA 703-846-0755 www.aiharegistries.org	AIHA Registry Programs promote the recognition of individuals who have demonstrated competency in a specialized area of industrial/occupational hygiene practice. These programs encourage individuals to keep their skills and knowledge current by demonstrating competency through recurring assessment and renewal. The SDS and Label Authoring Registry program was developed through a partnership with the Society for Chemical Hazard Communication (SCHC) to recognize chemical hazard communication and environmental health professionals who specialize in authoring Safety Data Sheets (SDS) and Labels.

CHEMDOX Inc. 222 Broadway, 19th Floor New York, NY 10038 USA 888-836-9462 www.chemdox.com	** PLATINUM SPONSOR ** CHEMDOX® develops outstanding software for creating and distributing Safety Data Sheets and other safety-related documents, combining software expertise with regulatory knowledge and hands-on industry experience. The solution supports global compliance, multilingual document generation and integration with third-party systems. With high automation and flexibility, CHEMDOX® generates SDS and other documents for 50+ countries, which can be distributed via centralized access or automated push, ensuring stakeholders always have the latest finalized information. Comprehensive regulatory content is built into the solution and updated at least four times a year. Dedicated support teams in Europe and the US assist customers.
EXHIBITOR	SERVICES PROVIDED
DR-Software 89 Long Lake Drive Hammonds Plains, NS B4B-1S6 Canada 902-832-3425 www.dr-software.com	In the world of chemical regulations, companies seek a reliable, comprehensive and user-friendly solution. ChemGes is a software that meets your current requirements and helps you meet future challenges. Since 1989, we have been leaders in innovation in compliance software. We work with small startups to global corporations. Our intuitive interface enables all levels of users to work efficiently. ChemGes is built on decades of experience, research and collaboration with experts worldwide. With ChemGes, you can create legally compliant SDSs in just minutes and automatically perform notifications (PCN, BfR...). In contrast to modular solutions, ChemGes offers a comprehensive package which can be expanded with custom modules.

LISAM 3091 University Drive E, Suite 430 Bryan, TX 77802 USA 979-307-7380 www.lisam.com/	** PLATINUM SPONSOR ** For 25 years, Lisam has built software for the people responsible for hazardous chemical compliance—from regulatory affairs specialists authoring safety data sheets to teams tracking chemicals on site. Our SDS compliance software, ExESS pairs SDS authoring with our regulatory content database, supporting global GHS requirements and languages. ComplyStation carries that work into the facility with chemical inventory, SDS access, and regulatory reporting. Thousands of customers worldwide rely on Lisam to keep compliance current, connected, and under control. We believe compliance software should answer questions, not create more. That means automation when you want it, control when you need it, and software that fits your existing processes.
