

**MARYLAND  
RECYCLE** CO., INC.

METAL PROCESSORS AND TRADERS

# THE CIRCULAR ECONOMY IN ACTION

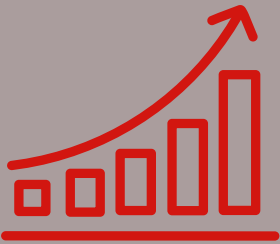

**HOW MARYLAND BUSINESSES ARE DRIVING PROFITABILITY  
AND SUSTAINABILITY THROUGH METAL RECYCLING IN 2026.**

Green practices are no longer optional—they are a competitive edge. Discover how commercial metal recycling reduces corporate carbon footprints while injecting value back into the local economy.

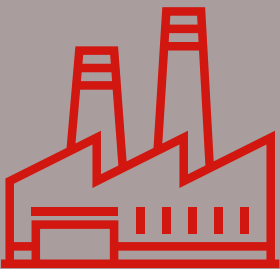

# METAL RECYCLING: THE BEDROCK OF MODERN ESG GOALS

**Conserving Natural Resources:** Recycling scrap metal drastically reduces the need for destructive mining operations. Reusing existing steel, copper, and aluminum preserves Maryland's natural landscapes and lowers greenhouse gas emissions.

**Turning Waste into Revenue:** Sustainable business is profitable business. Instead of paying landfill disposal fees for manufacturing scrap, demolition debris, or obsolete equipment, companies convert their commercial waste into a steady secondary revenue stream.

**Fulfilling Supply Chain Demands:** Consumers and stakeholders are demanding corporate responsibility. Partnering with a certified metal recycler allows Maryland businesses to verify their landfill-diversion metrics and strengthen their brand loyalty.

# YOUR LOCAL PARTNER IN COMMERCIAL SUSTAINABILITY

Maryland Recycle makes corporate environmental compliance effortless. We provide full-scale scrap metal management solutions tailored to construction, demolition, manufacturing, and industrial operations across the state.

**Custom Commercial Roll-Offs:** Timely container drop-offs and swaps to keep your job site clean and compliant.

**Certified Industrial Scales:** Digital, state-certified weighing systems ensuring transparent, top-dollar payouts for your materials.

**Comprehensive Material Acceptance:** From copper piping and structural steel to production turnings and electronic scrap.

## OPTIMIZE YOUR WASTE STREAM TODAY.

Ready to elevate your corporate sustainability and cash in on your scrap? Let our team design a hassle-free recycling program for your business.
