

**E-Mobilität
MADE in AUSTRIA**

WER wir sind

RocknRolla is an **Austrian brand for motorcycles** and offers comprehensive solutions in the field of **single-track e-mobility**.

We **develop and manufacture our own vehicles**, from e-cargo bikes to small electric motorcycles, especially for the demanding B2B and B2G sector.

Under the motto "**Everything from a single source**", RocknRolla also produces suitable charging infrastructure and mobility points, including associated software solutions.

Of course, production takes place in Austria, which creates jobs!

With our products and through the environmentally conscious production method, we make a contribution to **CO₂ reduction!**

SAE INTERNATIONAL

Registration authority for ISO 3780
ISO The Society of Automotive Engineers has been appointed by ISO to act as registration authority for the implementation of International Standard ISO 3780.

February 18, 2021

Erwin Haubert
Austrian Standards Institute

Die Herausforderungen = die Lösung

Supply Chain Act:
".... negative impacts of your business activities on human rights, working conditions and the environment..." and
".... of business partners who are part of the upstream and downstream activity chains..."

The majority of our suppliers come from the EU – production is located in Austria.

- EU-Taxonomie:**
1. **Wesentlicher Beitrag zum Klimaschutz**
 2. **Anpassung an den Klimawandel**
 3. Nachhaltige Nutzung und Schutz von Wasser- und Meeresressourcen
 4. **Übergang zu einer Kreislaufwirtschaft**
 5. **Vermeidung und Verminderung von Umweltverschmutzung**
 6. Schutz und Wiederherstellung der Biodiversität und der Ökosysteme

Wir erfüllen mit der Art und Weise wie wir unsere Produkte herstellen die für unseren Sektor relevanten Punkte der EU-Taxonomie.

SDG's:

Wir erfüllen folgende SDG's:

Our mission: Electromobility solutions for decarbonization

With our products and the way we manufacture them, we contribute to optimized CO₂ reduction!!

- **Supply chain:** Use of European suppliers for short distances and fast delivery.
- **Weight ratio:** Transporting a person in a 2,000 kg car is energy-inefficient and not CO₂-optimal.
- **Service life:** Vehicles and components are developed for long-term professional use.
- **Circular economy:** 99% recyclable materials, no plastic add-on parts. Batteries are reused as mass storage devices.
- **RocknRolla refurbishment program:** buyback, overhaul and resale with warranty before recycling.

CO₂ REDUCTION

"Unlike our competitors' products, our vehicles are designed and built for high-performance B2B use, which reduces lifetime costs and environmental damage."

e-Cargo Bike "ROCK-e" – USPs

Our new product fits perfectly with our e-scooter.

- Designed for demanding B2B applications – tested by Austrian Post
- Comprehensive safety features – mirrors, turn signals, taillight, strong brakes and more
- GPS tracker
- Low entry for easy access
- Comfortable seating comfort
- Payload of 170 kg including driver
- Available as an all-electric version or pedelec
- Individually adaptable transport boxes and functions

e-Scooter "ROCK-c" - USPs

In the 45km/h and +90km/h variants (from 2026).

A white and black e-scooter with a large black seat, handlebars, and a rearview mirror. It is shown from a side profile, facing left. The scooter is enclosed within a large red circle.

"The only e-scooter in the market specifically built for B2B use."

- No plastic parts - low total cost of ownership
- Purpose-built for high-performance B2B purposes
- Easy and fast repair (accessibility)
- Range up to 120 km
- Charging time 1.5 to max. 3 hours from 0-100%
- Intelligent sensors – GPS tracker, tire pressure & temperature sensor, weight sensor, tracking sensor with accident detection (option)
- Sound module (option) – mandatory for e-cars since 07/2021
- Charging via Schuko and Type2 charging cable (option)
- Built-in charger up to 1.3 kWh

RocknRolla Single Charging Point

The perfect basis for our vehicles - and much more!

- Fully automatic 3 in 1 solution:
 - stands – blocked – loads
- Individual approval:
 - APP, RFID card etc.
- Theft protection
- Vandalism safe
- Vehicle stands without center stand
- Built-in cable duct
- Can be combined to form a Mobilitypoint

Booking APP in-house development

Suitable booking app for our mobility solution

- Reservation of vehicles
- Easy booking
- Activate parking mode
- Flexible prices, special offers, ...
- Problem reports directly via APP
- Multilingual

Projekt “ZeroFlex” – the mobility point of the future

A modular system with maximum flexibility.

www.zeroflex.at

- Highly flexible system – easy assembly/conversion
- Cost-effective compared to existing systems – business case
- Developed and produced in Austria
- Circular economy – repair instead of replacement
- Suppliers mainly from A/EU – CO₂ reduction
- Various modules can be selected – e.g. roof module, solar module with storage, advertising module, etc.
- Everything from a single source
- On-site service partners

Projekt “ZeroFlex” – the mobility point of the future

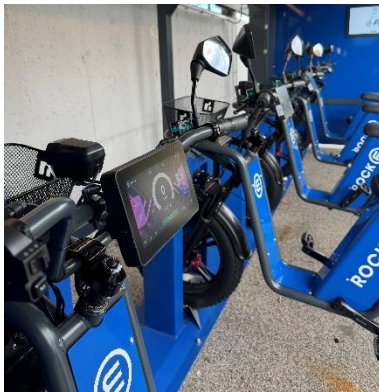

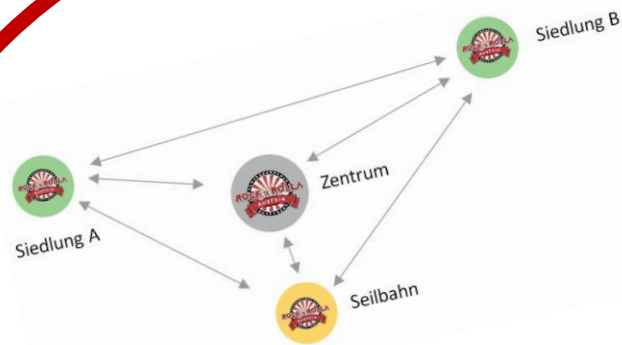

Opening of the Klagenfurt West location.

Projekt RYP – Internal mobility for municipalities

A modular system with maximum flexibility.

- Highly flexible system – relocation can be easily implemented
- Everything from a single source
- Financing through advertising contributions
- ROCK-e is the safest vehicle in its class
- Opening up new customer groups compared to "normal" bicycles
- Project ZeroFlex – Developed and tested as part of an FFG project (www.zeroflex.at)

RocknRolla in-house developments

We develop entire vehicles and system-relevant components ourselves.

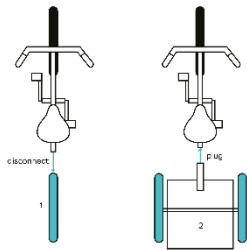

- VCU State of the Art – IP on Hard' & Software
- Sensors – tire pressure/temperature sensor, weight sensor, etc.
- Different vehicle classes
- Chargingpoint
- Flex-e-Base with energy generation (self-sufficient)
- AUKLR Instrument Cluster (with partner)
- ELINDRA – Vehicle

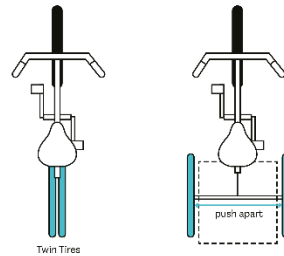

Projekt "ELINDRA" – THE e-bike of the future

2-wheeler and 3-wheeler in one vehicle.

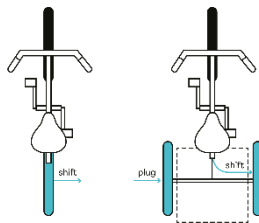

Version „Exchange“

Version „Twin Tires“

Version „Shift and Plug“

- 2 vehicles in one
- 3 different development platforms
- Digital Drive Train
- Carbon/Bamboo - Material Mix
- Sensor Technology
- 1 year field test city of Klagenfurt
- www.elindra.at

Phase 1 – Theorie abgeschlossen

Under the title "Bike4All", we developed assistance systems and driving aids especially for visually impaired people together with the Aid Association for the Blind and Visually Impaired in order to advance the topic of inclusion in single-track e-mobility as much as possible:

Distance warning

Radar-based driving assistance

Rear View Cameras

GPS with e-Call

Driver training at the ÖAMTC

Special navigation systems (safe route guidance)

FFG-funded project

The main pillars of our strategy

1

Concentration on single-track electromobility.

Real CO₂ reduction comes from efficiency!!

2

Focus on the B2B and B2G segment.

In the B2B market, total costs, quality and service count.

We don't compete with cheap Asian products.

Products are designed for intensive users who rely on our reliable vehicles.

3

Regional focus on Europe and Africa.

4

Expansion of the product range according to customer requirements.

As manufacturers, our customers can decide for themselves.

5

No product without service!

Through partner contracts, we guarantee high-quality and cost-effective vehicle support for our customers.

6

Production with high quality standards and a low CO₂ footprint.

- Supply chain with short transport routes
- Made in Austria
- No plastic parts (no production, no storage, no recycling)
- Long service life and second life cycle of vehicles and parts
