

The Producers of decarbonisation

Complete System for CO₂ reduction – the source

CO₂ reduction needs a complete system – or better: supply chain!!

With our partner companies we use one of world's finest energy source to make sure to reach highest possible CO₂ reduction!!

Complete System for CO₂ reduction – traffic

CO₂ reduction needs a complete system to be serious:

With enough energy produced we firstly take care of urban traffic solutions for direct impacts in the urban areas:

FROM ONE SINGLE PRODUCER MADE in AUSTRIA!!

- The companies

RocknRolla & SolarGaps are both producers with their own products, R&D and production!!

RocknRolla is an Austrian **motorcycle brand** and a total solution provider for single-track e-mobility.

We develop and produce our own vehicles from e-cargo bikes to e-small motorcycles for tough B2B use.

According to the motto "Everything from a single source", RocknRolla also develops and produces suitable charging points and mobility points including software solutions for fleet use.

SolarGaps is a producer of smart blinds and glass facade elements to produce green energy on (almost) every building.

We are the pioneers of the energy generation method that will power the offices, homes and cities of the future.

Our vision is that one day not house will be connected to the grid; but rather, the grid will be connected to the house. This radical way of thinking will help create a more reliable, safer and more efficient energy system for the cities.

e-Scooter "CORE" - USPs

In homologation – development finished

"The only e-scooter in the market specifically built for B2B use."

- No plastic parts – low total cost of ownership
- Specifically built for heavy-duty B2B purposes
- Easy and fast repair (accessibility)
- Highest quality
- "Made in Austria" / EU Certificate of Conformity
- Best in class Battery Management System
- Range up to 120km
- MaaS software for e-Fleet management available

e-Cargo Bike "LEO" – USPs

Ready for market – Serie o finished

- No plastic parts – low total cost of ownership
- Built for heavy-duty B2B purposes
- Easy and fast repair (accessibility)
- Quality – up to 4 years warranty
- "Made in Austria"
- 170 kg pay-load
- Fully electric or pedelec version
- Same brakes and suspension as CORE
- Customizable transport boxes and features

RocknRolla "ZeroFlex" Project

Running development project – decided to be eligible for fundings by an international jury!

- Complete modular system
- Solar charger including batteries for storage (optional)
- Different vehicles classes – 25, 45 and 90km/h
- External e-fuel stations
- Easy mount/demount
- Defibrillator included
- Advertising screens (revenue generating)
- MaaS software
- Including service contract

RocknRolla Mobility Point

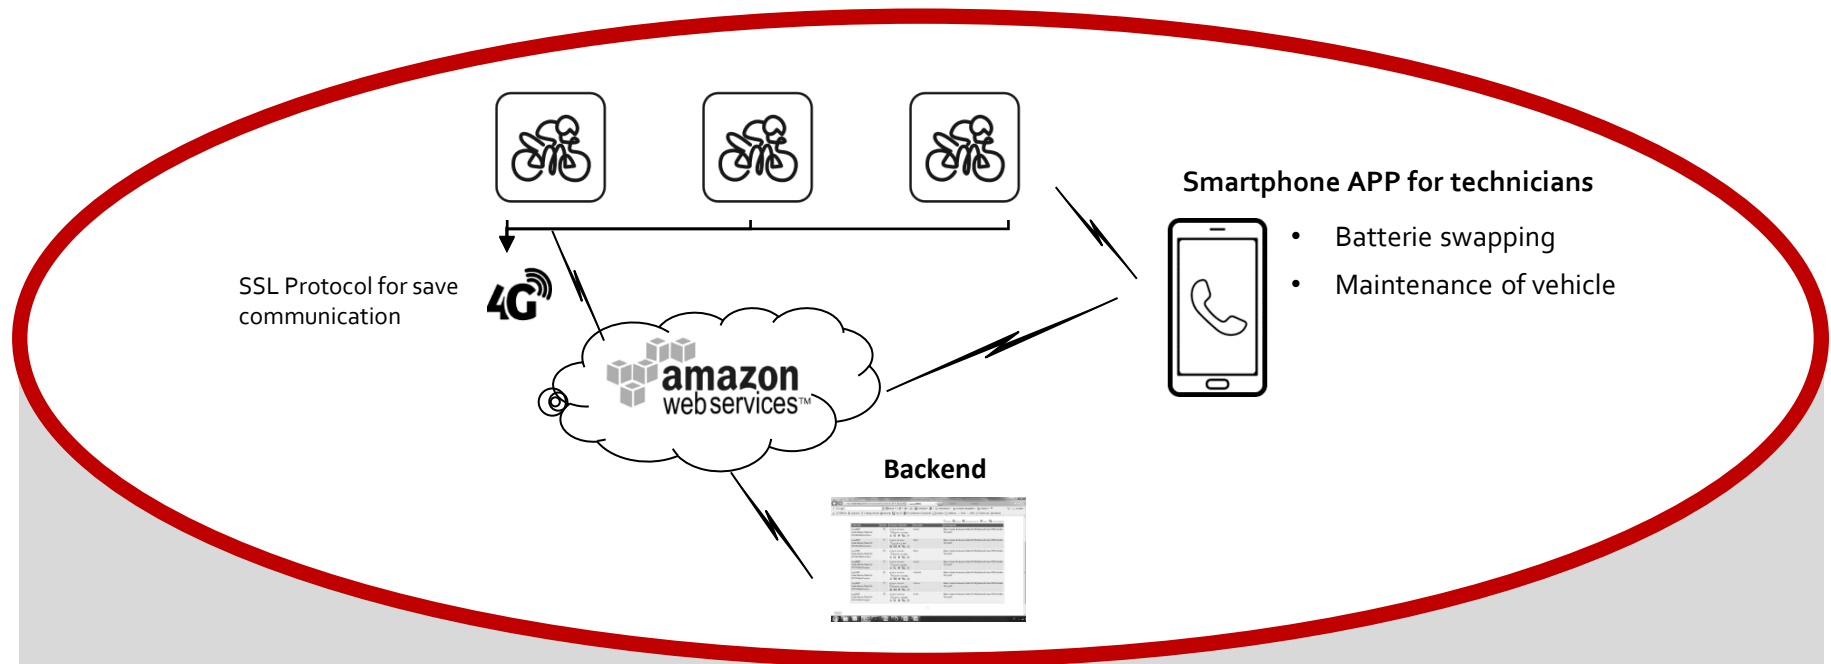

Part of FFG project "ZeroFlex"

- Fully automated system: stand – lock – charge
- Individual release: RFID card, key systems
- Theft protection
 - Extendable to mobility point
- Made in Austria

E-Fleet Management

Part of FFG project “ZeroFlex”

- Management of vehicles, customers and trips
- Management of different trips / reservations
- Management of different vehicle types and license classes
- Flexible pricing, promotions, ...
- More than 20 predefined alarms from vehicles, customers and trips
- Management of battery replacement

Our vehicles are for (almost) EVERYONE.

Under the title "Bike4All", together with the **Hilfsgemeinschaft für Blinde und Sehschwache** we are developing assistance systems and driving aids especially for visually impaired people in order to promote the topic of inclusion in single-lane e-mobility as far as possible:

- Distance warning
- Radar-based driving assistance
- Rear cameras
- GPS with e-Call
- Driving training at the ÖAMTC
- Special navigation systems (safe route guidance)
- FFG funded project

SolarGaps – Energy production

Clean energy starts with clean energy production – smart blinds.

- energy generating smart blinds
- Auto tracking mode
- Up to 22,4% efficiency
- BMS integration
- Made in Austria (coming soon)
- Easy installation

SolarGaps – Energy production

Clean energy starts with clean energy production – Interfloor eWall.

- Energy generating glass facade
- 210 Wp/wq.m
- Lightweight – ultra thin yet durable tempered glass technology
- Working temp. -40° C to +85 ° C
- Made in Austria (coming soon)
- Easy installation
