

The Art of Custom Home Storage

INSPIRATION FOR CLOSETS, PANTRIES, WORK SPACES, AND MORE

About Our Company

George started All About Closets in 2003 and, quite frankly, it was by accident. He was dating his girlfriend at the time and when he walked into her closet she had one rod and shelf running around the perimeter. From an engineering standpoint, he realized there was wasted space below and above the rod. He redesigned her closet in AutoCAD and presented his solution for doubling her closet capacity with double hang, long hang and shelving. She went on a trip with a girlfriend, and while she was away he organized the closet, and as expected, all of the clothes fit in half of the space. As a result, she was able to fit her whole four-season wardrobe in the closet with room to spare. After looking on-line about closet companies, he found that Neil Balter was looking for authorized resellers of his product line at Organizers Direct. Neil pioneered the closet industry by starting California Closets in 1978. George started his business in 2003 and hasn't looked back. He attributes his success with All About Closets by always placing the customer first, striving to exceed expectations, providing excellent quality materials/designs and having a lifetime warrantee on products and services.

For those of you who are wondering, a few years later that girlfriend became his wife and she is still an integral part of All About Closets' success!

Our Process

CONSULTATION

1.

During your in-home consultation, our designer will evaluate your space, talk through your goals and expectations, and create a 3D design for you to review.

ESTIMATE

2.

After your project has been reviewed and you have chosen your design styles and finishes, we will provide you with an estimate and projected completion date.

INSTALLATION

3.

Our professional installers will treat your home with care as they bring your vision to life. Your satisfaction is their first priority.

LIFETIME GUARANTEE

4.

Our manufacturer offers a lifetime warranty on all wood products. If a product ever fails during normal use, we will replace it free of charge. Period.

Closets

Reach a new level of organization with our innovative custom closet systems. Designed to fit in any space big or small, we will work with you to transform your cluttered closet into a well-organized space that meets both your style and budget.

Design & Organization

A beautifully designed closet goes beyond organization, it elevates your routine and allows your space to feel like an extension of your style. With thoughtful expertise we will bring your vision to life with trusted precision and care.

Closet Accessories

Enhance your closet by using our coordinating accessories: handles, shoe storage, jewelry organizers, hampers, and much more. Our accessories will fine-tune your storage, keeping your closet clutter-free and functional.

Work Spaces

A home workspace can come in a variety of shapes and sizes, depending on your needs and lifestyle. A truly effective workspace is one that facilitates a good work-life balance. No matter your situation, you deserve a customized solution to further your career and hobbies that is both productive while feeling like home.

Creative Storage

Personalized storage is just the beginning of a functional workspace. Our designers will help transform your space into a creative haven for crafting or a relaxed professional space for your home office; whatever your needs are we'll make your dream a reality.

Pantries

The kitchen is the heart of the home, and a well-designed pantry makes all the difference. Our pantry solutions are thoughtfully crafted to improve visibility and access, helping you create a more efficient and beautifully organized space.

Elegant Organization

Your kitchen pantry plays an important role in how your home functions day to day. With custom shelving, dividers, and baskets, we can create a system that keeps everything organized and easy to maintain. We can also incorporate features like a countertop for frequently used items or drawers for quick access to everyday essentials, making the space both practical and tailored to your routine.

Mudrooms

Mudroom drop zones serve as the home's first barrier against the outdoors. They're the spot where kids kick off muddy sneakers after playing outside and where wet boots and coats are left to dry after a storm. A mudroom offers a practical yet polished way to keep your home organized and running smoothly.

Redefined Space

Whether you need a place for everyday essentials or a space that adapts through the seasons, a mudroom offers a practical solution. With a wide range of customizable options, we can help create a space that keeps your home organized and your day running more smoothly.

Unique Spaces

Some storage needs cannot be categorized. They are what we call “unique spaces.” From laundry rooms to wall beds and everything in between, our designers bring creativity and expertise to solve your most challenging areas of your home. Each solution is tailored to your home, maximizing functionality while maintaining a cohesive and polished look.

Endless Inspiration

Not every space follows a standard design, and that's where customization matters most. With a wide selection of finishes and styles, we tailor each solution to fit even the most unique areas of your home. Our designers collaborate with you to create a space that is both functional and beautifully aligned with your aesthetic.

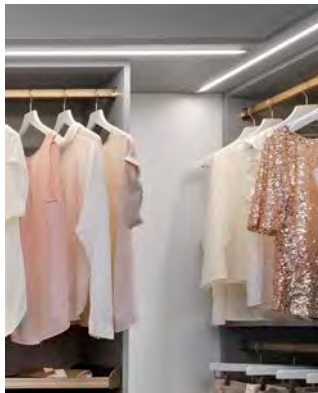

Enhance Your Design

More is more and with our line of enhancements you can turn up the elegance in every space of your home. Brighten up your life with lighting, add beauty with metal framed doors or dare to be bold with a custom countertop. The possibilities are endless!

LED Lighting Options

A well-designed lighting solution that enhances both the look and functionality of your closet. With options like strip lighting, puck lights, and illuminated shelves, it provides clear visibility while highlighting key design elements. By integrating seamlessly into your space, it creates a more organized, efficient, and visually refined environment

Strip Lighting

Sleek and seamless, strip lighting delivers a continuous glow along shelves and hanging areas. It highlights your wardrobe while creating a clean, modern look.

Vertical Lighting

Looking to make a bold impression? Vertical lighting adds height, drama, and a striking modern edge, instantly turning your closet into a standout design feature.

Puck Lighting

Small but impactful, puck lights add focused illumination exactly where you need it. They're perfect for spotlighting shelves, drawers, or statement pieces.

Illuminated Shelves

Make every detail stand out. Illuminated glass shelves cast a subtle glow that enhances visibility while adding a layer of sophistication and contemporary luxury.

Metal Framed Doors

A distinctive way to elevate your custom storage, Metal Frame Doors offer a refined balance of style and functionality. With a range of finish options, they complement any design aesthetic while adding a sophisticated, luxurious finishing touch.
