

BOMBAX MINER EZ100-C Firmware Version 1.1.0-7 Upgrade Instruction

BOMBAX MINER EZ100-C Firmware

Version 1.1.0-7

Updated on June 22, 2024

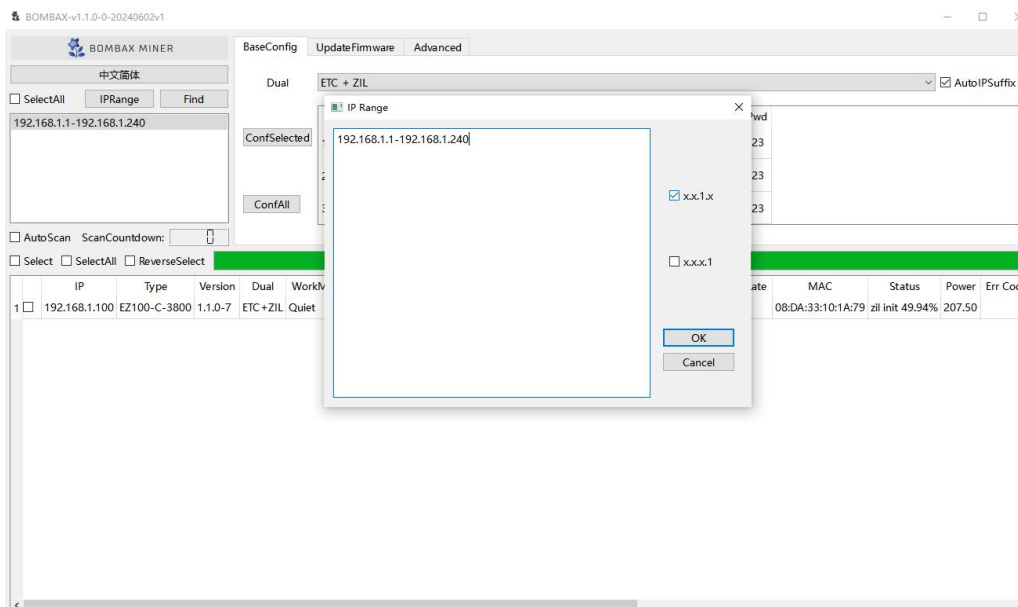

Compatibility: BOMBAX MINER EZ100-Cozy Edition

What's Fixed:

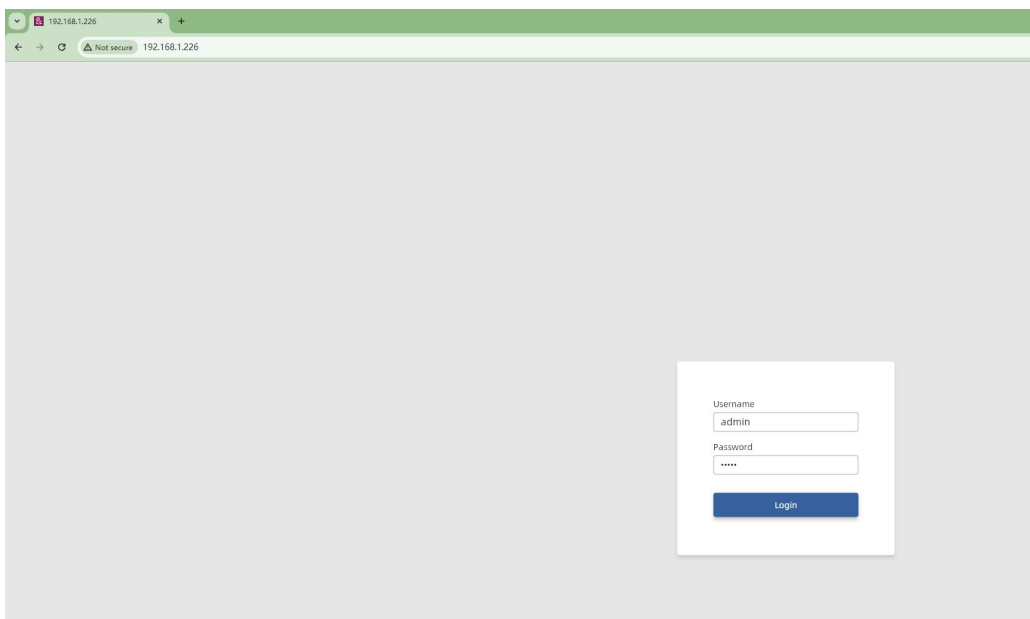

- Fixed an EZ100-C factory reset bug (shown as miner not functioning and the fans not running).
- Fixed bugs (triggered by switching coins using browser) related to mining NON-ETC coins.
- After upgrading, to restore factory settings, please press and hold the IP button for 12 seconds. (Usage: resetting admin password or static IP back to DHCP)

Please refer to the following instructions.

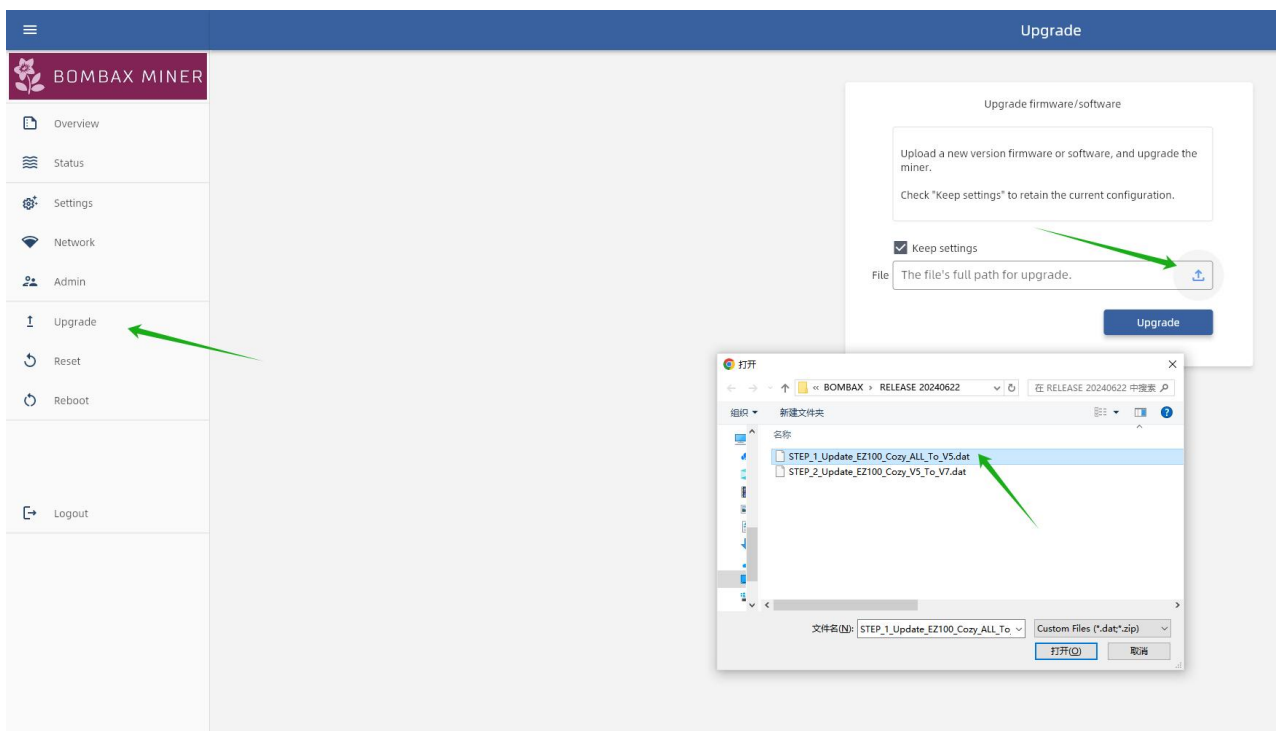

1/ Locate Miner IP

2/ Login to corresponding IP address with admin/admin

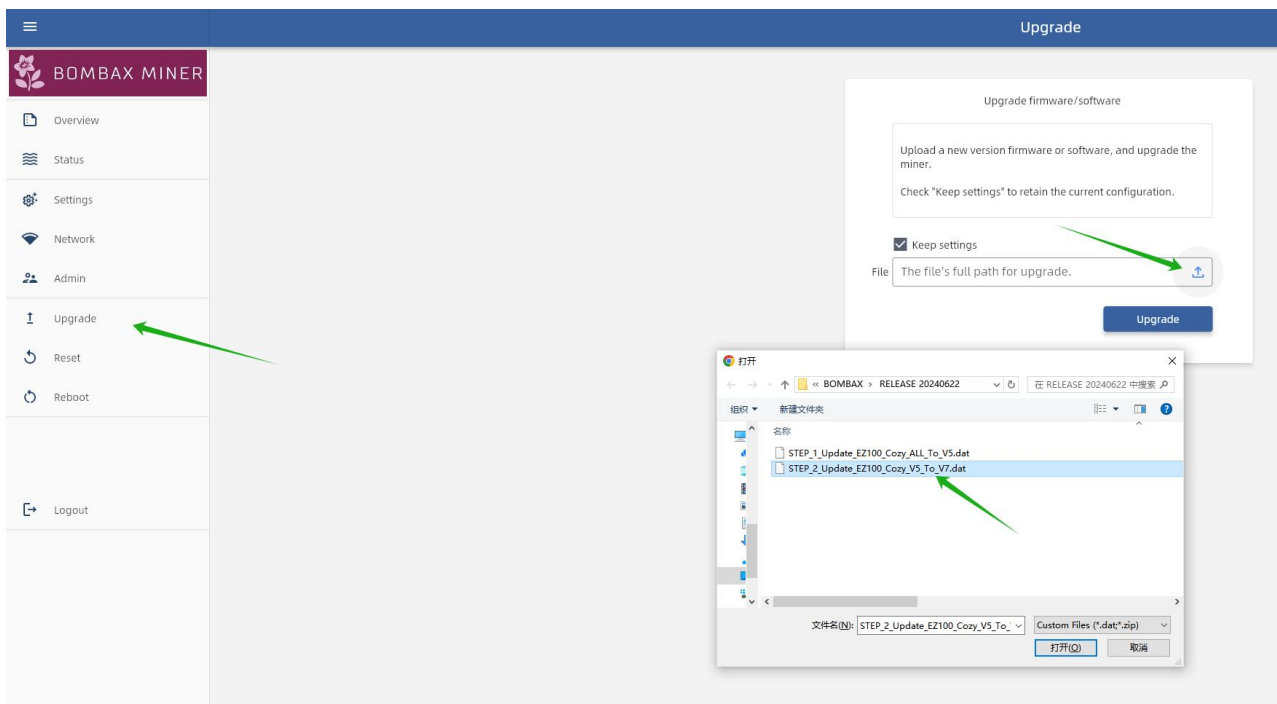

3/ Click “upload” and select “STEP_1_Update_EZ100_Cozy_ALL_To_V5.dat”; Click “Upgrade”

EZ100-C will auto restart after progress reach 100%

After refreshing browser and relogin, overview page will show new firmware version 1.1.0-5 .

4/ Click “upload” and select “STEP_2_Update_EZ100_Cozy_V5_To_V7.dat”; Click “Upgrade”

EZ100-C will auto restart after progress reach 100%

After refreshing browser and relogin, overview page will show new firmware version 1.1.0-7 .

Status:

Attention:

The **RESET icon** in the web interface is only used to enter **maintenance mode** and must be used with instructions from BOMBAX tech supports.

If RESET icon and confirmation are clicked by accident, the EZ100-C will enter into maintenance mode, in that case, please upgrade the latest Firmware package again to resume back.
