

6TH ANNUAL  
**BULL SALE**

MARCH 11, 2022 / 1:00 PM / BALOG'S AUCTION MART

LEFT TO RIGHT Josh Smith, Shawn Nelson, Kevin Nelson, Jimmy Nelson, Jeff Nelson.

**Dear Friends:**

I hope that life has treated you well, and that your families and businesses are doing great as well. What a roller coaster it's been again this past year with the Pandemic, record feed prices, drought, record crop prices, taxes, inflation, high prices, supply chain disruptions, etc. We went from some

of the best crops produced 2 years ago, to some of the poorest this past year. Grain and feed prices have doubled, and some even tripled in the past year and a half. Feeding our herds this year is challenging, we hope and pray for more feed this coming year. These markets are not for the faint of heart. What a ride! Fortunately, you are still here and moving forward. Some exciting changes have occurred in Angie's and my life. We are Grandparents!! Autumn (one of our twins) and Jacob welcomed in our first Grandchild back in November. Also, Austin (our other twin) married Emma Greep 2 weeks later. Jade (our next daughter) just got engaged to John Jones a couple weeks ago. Noah is serving a 2 year mission for the Church of Jesus Christ of Latter Day Saints out in BC, and our youngest 2 are still in school. On a sad note, we did lose some dear friends again in the industry this past year and we are sad to see them go. They are still in our hearts.

Looking forward, we are optimistic that the virus will be defeated and life will return back to normal soon. I'm moving forward. People have learned the importance of our food supply and are a lot more mindful of where their food comes from and the distribution pipeline. I hope that we have all learned more and are better prepared to face the uncertainty that we see in our lives. Protecting our food supply will be on our minds for a while. Cattlemen take great pride in the product that we produce and together we will continue to produce a safe, desirable food product. Alberta Beef is awesome. I love it!! I eat it every week. I encourage all of you to be involved in our industry and help to teach our friends and neighbours the importance of our industry. They need to hear our story from us, not somewhere else. Together we will continue to grow and develop our great cattle industry.

We are very excited to invite you to our Spring Production Sale. We have decided to hold our sale in Lethbridge this year at the Balog Cow Palace. Give us a call and come visit anytime. You can also look up some info on our website at [nelsonfamilyranches.com](http://nelsonfamilyranches.com)

I look forward to visiting with you this fall. Call anytime.

*Jeff Nelson*

Nelson Family Ranches Ltd. 403-635-7078

# TERMS & CONDITIONS

**Guarantee:** Standard Canadian Angus Association, Charolais and Simmental guarantees apply. We do, however, follow up on all animals sold to insure satisfaction.

**Health:** The Herd is maintained in a TB and Brucellosis free area and the Cowherd is annually vaccinated for IBR, P13, BVD, BRSV and Vibrio. All Sale bulls have also been treated with Ivermectin.

**Terms:** Cash Sale day, unless previous arrangements have been made. We will make every effort to accommodate your needs. Cattle become the responsibility of the buyer after purchase. Cattle will not be delivered till payment is made in full or special arrangements made.

**Sight Unseen Program:** Call and let us help select the right animal for your needs. We guarantee the best possible animal for the best possible price. If you aren't satisfied with our choice, we take them back.

**Other Information:** All announcements from the Auction Stand take precedence over any other information written or oral. **PHONE and INTERNET BIDS** accepted.

## For In Herd Semen Interests in Bulls announced sale day:

WE ARE RESERVING THE RIGHT TO DRAW SEMEN ON ANY OF THE BULLS SOLD IN THE SALE TO BE USED IN OUR OWN HERD ONLY. THIS WOULD BE DONE AT OUR EXPENSE AND THE BUYER'S CONVENIENCE. At Buyer's request, we will provide all health, customs and brokerage papers, and delivery of the cattle to the U.S. SIDE OF SWEETGRASS, MONTANA at no charge. Trucking from that point will be the buyer's responsibility. Help with arrangements for trucking to final destination is available. \*NOTE if you want us to do your paperwork, you must provide your IRS number sale day.

**Wintering:** All bulls will be wintered free of charge until April 1st, 2022. Please make arrangements to pick up your bull April 1. Bulls can also be picked up at our Bull sale March 11 if you would like. \$100 / month will be charged after April 1st. \$200/bull will be deducted from the 2 yr olds if they are picked up sale day or within a week after the sale. Bulls must be picked up by April 1st, 2022.

## 6TH ANNUAL SPRING BULL SALE *at* Balog's Auction Mart, Lethbridge, AB

**Friday, March 11, 2022**

At our feedlots, animal welfare is a priority from day one. All cattle are individually identified upon entry; and their history is recorded and tracked from arrival to slaughter. Our staff adhere to our veterinarian procedures and protocols to ensure the health and welfare of all animals under our care. In the past 3 years, we've kept some of our calves separate so we can track their performance. Our ultimate goal is to provide you as much data as possible on your calves. The more information you have, the more informed you can be when it comes to purchasing bulls. In short, with data already on the bulls, in combination with data on your calves, you can select bulls that are tailor made for your needs. We invite customers to stop in and visit anytime to have a look at the animals they've raised.

*mike smith*

This is the fourth year Nelson Family Ranches (NFR) are using GrowSafe to measure feed efficiency of their young breeding stock.

GrowSafe technology measures the feed intake of individual animals and their weight gains. When an animal puts its head in a GrowSafe feed node its RFID tag is read and the feed intake is calculated. When the animal goes to GSB water trough its weight is calculated. Cattle are on test for approximately 2 months which gives a representation of their efficiency. Through this process Residual Feed Intake (RFI) is calculated, which is the difference between their actual and expected dry matter feed intake. The lower the RFI value is, the more efficient an animal is. For example, an RFI value of -2.1 means an animal is projected to consume 2.1 less pounds of dry matter per day than what is expected for its size and weight gain.

The ADG, RFI, and F:G calculations are acquired from a third party, GrowSafe Vytelle, who moderate the collection of data daily while animals are on test. All animals are sorted into contemporary groups according to breed, trial start date, gender, and weight and age groups.

Calculations are made as follows:

ADG = animal's weight gain divided by days on trial.

Feed to Gain (F:G) = an animal's average dry matter intake divided by its ADG.

For example, a 5.62 F:G value means an animal consumed on an average 5.62 pounds of dry matter for each 1 pound of gain. In the last 2 years we have been using GrowSafe Adjusted feed to gain ratio (Adj F:G), which is more accurate and accounts for differences in animal age and size during test. This currently is the standard of feed conversion efficiency used by the Beef Improvement Federation.

RFI = the average pounds of dry matter consumed by an animal per day minus its expected feed intake. Negative is better.

RFI Index and F:G Index have inversed calculations, higher the index reflects values that are more favorable.

RFI Index =  $1 - (\text{animal RFI} / \text{m DMI})$  \*Midland Bull Test Calculation

Adj F:G Index =  $1 - (\text{animal Adj F:G} - \text{m Adj F:G}) / \text{m Adj F:G}$  \*NFR Calculation

NFR Index =  $(\text{ADG Index} + \text{F:G Index} + \text{RFI Index}) / 3$

The NFR Index was developed to have a balance equally weighted indicators of animal's growth, feed conversion, and efficiency. An animal with a 100% NFR index is average in its contemporary group. Animals with Higher NFR index are likely going to be more productive and efficient through their growth and maintenance periods.

The goal of NFR is to produce efficient breeding stock, stacked generationally, which will help decrease costs for them and their clients. RFI is highly heritable and helps reduce greenhouse emissions.

If you have any questions you can contact Bradley Smith at (403) 360-5716
