

It's on your bucket list. You have always wanted to fly, but you don't know where to begin. The dream of obtaining your pilot license is possible. WACO offers Flight Ground School. Begin your flight journey at WACO—practically in your own backyard!

Waco Museum is pleased to have Malvika Stuckey instructing this course. Mal is a flight instructor with more than 1700 hours in the air and has made about 30 pilots in the past 4 years of instructing. To experience mountain flying, Mal instructed in Arizona before moving to Dayton, where she married another pilot. Her love for sharing general aviation with others is apparent as she teaches. She regularly attends meetings and webinars by AOPA and FAA to help her students and others be safe in the skies. As a flight instructor, her goal is to provide quality instruction and she gives utmost priority to safety.

Wednesday nights, 6:00-9:00 pm beginning November 5, 2025 for 11 sessions.

Must have 5 participants for the class.
