## January Frost Storm

The Lakeland Power Co-op Board, Management, and Staff would like to thank our membership for their patience and understanding during the frost storm the week of January 15-20. Our linemen worked extremely hard to ensure all our members had their power restored.

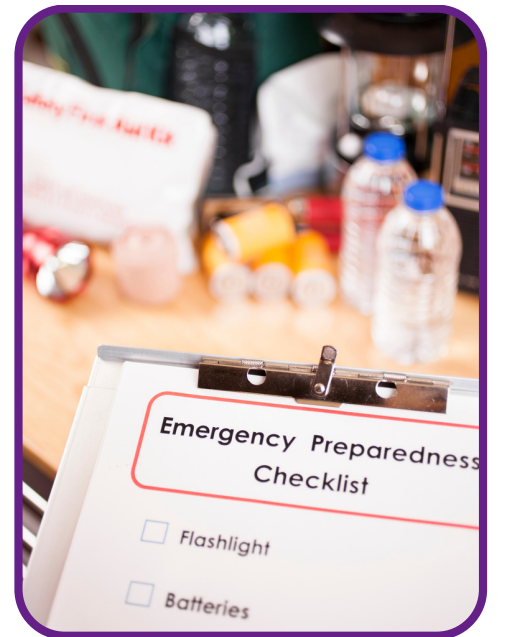

As the weather can be unpredictable, we don't have control over unplanned power outages. If you are concerned with being without power for an extended period of time, an option is hooking up a generator. You can contact any local electrician if this is an option you feel you would be interested in.

Check out the following websites for more information on how to prepare for an emergency for up to 72 hours:

<https://www.alberta.ca/emergency-preparedness.aspx>

## Alberta Government Affordability Relief Measures

Electricity rebates will be extended until April 2023. For January and February you will see a \$75 rebate on your power bills and for March and April the rebate will be \$25.

For the months of January, February and March 2023, members on the RRO (Regulated Rate Option) will be charged an RRO cap of 13.5 cents per kilowatt hour on your energy.

**The difference in the set RRO, as per Lakeland Power Co-op's RRO price setting plan, and the Government of Alberta 13.5 cent RRO cap for these three months will be deferred and will be repaid by all members on the RRO over 21 months (April 2023 to December 2024).**

Please call the office if you have any questions regarding these relief measures.

## 2023 Stable Rate Option Contract

Our NEW Stable Rate Option Contract for 2023 is 11.2 cents/kWhr.

If you are interested in switching to the new fixed rate, please contact the office!

The RRO for the month of February is 33.564 cents/kWhr.

The Lakeland Power Co-op Office will be closed on Monday, February 20, 2023 for Family Day.
