### Emergency Preparedness

*Alberta weather can be unpredictable, we don't have control over unplanned power outages.*

*Being so, members must be prepared for a variety of situations.*

*Check out the websites below for more information on how to prepare for an emergency for up to 72 hours:*

*If you are concerned about being without power for an extended period of time, an option for you is to hook up a generator. If you believe this may benefit your site, please contact any local electrician!*
