Reminder: Keep Access Clear for Linemen This Winter

As winter approaches, please ensure the area around your transformer pole remains clear of vehicles, equipment, and debris. This allows our linemen safe and efficient access to maintain or restore power in the event of an outage.

Additionally, when clearing snow, please take note of where it is being placed throughout the season. Snow should not be pushed or piled within our Right of Way areas, as this can block access to the transformer pole and power poles both in your yard and along the mainline.
Your cooperation helps our linemen work safely and restore power more quickly when needed. Thank you for your help in keeping our system reliable and accessible this winter.

Alberta's New Time System (ABT)

Reminder that Alberta has adopted permanent Alberta Time (previously called Mountain Daylight Time or MDT in Alberta) to eliminate the previous practice of semi-annual clock changes.
Effective November 1, 2026, clocks will no longer reset to Mountain Standard Time, and Alberta will remain on Alberta Time year-round.

Food Bank Donations Needed

Currently local Food Banks are struggling with low levels of food. If you can help by making a donation of non perishable food, hygiene products or monetary, it would be greatly appreciated.
LPC has a donation box located in our office.

Tariff Savings

With the removal of the $5.50 DR Tariff and $5.50 Brushing Tariff, every member with an energized site has saved a total of $143.00 on their power bill since October 1, 2025.
Your Board of Directors strive to save LPC members $$ where they can.

Stable Rate Option Price Reduction

As of September 1, 2026, the Stable Rate Option offered to our Lakeland Power Co-op members was reduced to 6.99 cents/kWh.

If you are already on the Stable Rate Option, there is no action to be taken. The contract we have on file is auto renewed.

If you have any questions, please give us a call at (780) 632-6112.
