Updated Bid Form, 3 Pages

March 18, 2026

I hereby certify that this Addendum was prepared by me or under my direct supervision and that I am a duly registered Engineer under the Laws of the State of Ohio.

ACCESS ENGINEERING SOLUTIONS

TO: ALL BIDDERS OF RECORD

ADDENDUM NO. 1 to Drawings and Specifications for the West Wood Street Area Street Reconstruction, Village of Versailles, Ohio; as prepared by Access Engineering Solutions, Celina, Ohio.

This Addendum shall hereby be and become a part of the Contract Documents the same as if originally bound thereto.

The following clarifications, amendments, additions, revisions, changes, and modifications change the original Contract Documents only in the amount and to the extent hereinafter specified in this Addendum.

NOTE: Bidders are responsible for becoming familiar with every item of this Addendum and acknowledge the receipt of said addendum on the bid forms.

ITEM NO. 1 – REVISED BID FORM

The attached revised bid form shall replace the bid form provided with the bid documents. The changes to the bid form are summarized below:

- Correction of description for Bid Item 11 (Original Bid Form Item 10) from Subgrade Improvements to Subgrade Compaction.
- Correction of unit of measure for Item 33 (Original Bid Form Item 32) 1" Water Service Line from EA to LF.
- Addition of bid item 9 - Retaining Wall Removal with a quantity of 475 LF.

ITEM NO. 2 – SIGN REMOVAL AND RE-ERECTION - CLARIFICATION

All costs for existing sign removal and temporary re-erection is to be included in the lump sum price bid for Item 3 – Clearing and Grubbing

ITEM NO. 3 – WATERLINE DEPTH - CLARIFICATION

The waterline is to be installed at the depth shown on the plan and profile sheets. This is generally deeper than the minimum depth of five (5) feet. This is being done to avoid conflicts with the existing sanitary sewer and storm sewer. This is also being done to allow the waterline to be constructed first, which will then allow both existing waterlines in the project area to be abandoned prior to storm sewer and sanitary sewer construction.
