

SWIFT CAPABILITIES

Your Leaders in Electrical & Renewables, Today & Tomorrow

Wired differently for a sustainable world

Queensland and Northern NSW's trusted leader in comprehensive **electrical and renewable energy services**, delivering end-to-end installations from design and project management through to construction and ongoing maintenance.

We treat every project with the **respect it deserves, delivering quality people and quality results.**

Our complementary electrical and renewable energy services provide complete energy solutions with **integrated project delivery and optimised performance.**

Your Leaders in Electrical & Renewables, Today & Tomorrow

Quality People Delivering Quality Results

You can rest assured, knowing you're in
expert hands.

Our values make us **Swift Proud** – they define who we are, how we work and why our clients choose us for their projects.

Quality People. Delivering Quality Results.

Trust

Easy To Deal With

Passion

Our Services

Complete electrical and renewable energy services across commercial, residential, and industrial sectors.

Our comprehensive certifications and proven track record ensure your project is delivered with the highest standards of quality, safety and environmental responsibility.

GCPV Design & Install - Full

Project managed from start to finish by one team.

No surprises, clear communication throughout.

Quality work that stands the test of time.

Complete Project Solutions

Beginning-to-end project delivery from design to commissioning, with integrated civil works and ongoing support - eliminating the complexity of managing multiple contractors while ensuring your project is delivered on time, on budget, and built to last.

Project Management

Your project managed from start to finish by one experienced team, with clear communication and transparent progress reporting throughout every phase.

Civil Works Integration

Essential civil infrastructure including trenching, foundations and site preparation, managed in-house for seamless and coordinated project delivery.

Support & Maintenance

Comprehensive maintenance programs and 24/7 support services to ensure your infrastructure continues delivering optimal performance long after commissioning.

Electrical Services

Commercial, industrial and residential electrical services across Queensland and Northern NSW.

From design and construct electrical projects with complete engineering, design and maintenance support to automation, hospital cardiac-protected areas, intelligent lighting systems, and motor infrastructure.

Commercial Electrical

Complete commercial electrical services from design to commissioning

Capabilities:

- Engineering, design and consultancy
- Commercial electrical installations and maintenance
- Intelligent lighting control systems and automation services
- Emergency lighting
- Hospital and medical facilities
- Data and communications infrastructure
- Security systems and CCTV
- Audio-visual installations
- Air conditioning systems
- Industrial electrical systems

Key achievements:

- Queensland X-Ray South Toowoomba PET/CT & X-Ray Department
- Multiple educational facilities – Pittsworth SHS, Oakey SHS, Mary Mackillop College
- Hospital upgrades – 11 Western Hospital sites
- Chinchilla SHS Engineering Facility
- Good Samaritan College Foot Tech & GLA Rooms
- Hungry Jack's Harristown & Blue Mountain Hotel refurbishments

Industrial Electrical

Heavy-duty electrical systems for industrial applications

Capabilities:

- Industrial electrical systems and maintenance
- Motor control and automation
- High voltage installations
- Power factor correction
- Electrical safety testing and compliance

Key achievements:

- Yarraman Waste Facility electrical systems
- Environex Plastic Recycling Facility – Wellcamp
- Circular Community Australia Torrington industrial installations
- Vinidex maintenance and upgrade works
- Lifeflight Hangar & Offices Roma
- Multiple industrial facility electrical upgrades and maintenance programs

Residential Electrical

Safe, reliable electrical services for your home

Capabilities:

- General lighting and power installations
- Residential electrical services and maintenance
- Fault-finding and repairs
- Air conditioning residential systems
- Home automation and smart systems
- Safety switch and electrical safety inspections

Key achievements:

- Thousands of residential electrical installations across QLD & Northern NSW
- Comprehensive safety switch and electrical safety inspection programs
- Smart home automation systems and intelligent lighting installations
- Air conditioning electrical installations for residential comfort
- Emergency electrical response and 24/7 fault-finding services
- Complete residential electrical upgrades and modernisation projects

Renewable Energy Services

Commercial, industrial and residential solar and battery services across Queensland and Northern NSW.

Embedded networks, solar installations up to 10MW and battery installations up to 30MWh.

Complete design, installation, and performance monitoring services.

Commercial Renewable Energy

Large-scale solar solutions that deliver real business results

Capabilities:

- Large-scale solar PV design and installation (up to 1.8MW completed)
- Battery energy storage system integration
- Embedded network installations
- Grid-tie renewable systems
- Energy efficiency consulting
- Performance monitoring and maintenance

Key achievements:

- 1.8MW rooftop installation – Redbank, Brisbane
- 1.2MW Yamanto Central Shopping Centre
- 1MW Booval Marketplace – large-scale retail solar project
- 1.325MW Vinidex multi-site project – distributed renewable energy
- 450KW embedded network – SeaChange Toowoomba
- Multiple Bunnings installations – ongoing retail partnership

Residential Renewable Energy

Clean energy solutions for your home

Capabilities:

- Residential solar PV installations
- Home battery storage systems
- Off-grid renewable systems
- Energy efficiency assessments

Key achievements:

- 3 x 60KW Sunshine Coast retirement villages – specialised residential care facilities
- Multiple residential solar installations across Queensland and Northern NSW
- Premium technology partnerships with Tesla, SolarEdge, Sungrow, and Victron
- Comprehensive off-grid solutions for remote properties

Industrial Renewable Energy

Utility-scale renewable services for industrial applications

Capabilities:

- Utility-scale solar installations
- Industrial battery storage integration
- Energy management systems
- Grid integration services

Key achievements:

- 500KW McNab Developments – Brisbane commercial development
- 380KW Homeco multi-site – distributed installations across multiple properties
- 266KW Queensland Rail – infrastructure renewable energy project
- 38KW Yellow Bridge Toowoomba – commercial installation
- Multi-site industrial solar installations across various sectors

Giving back to our community

We believe in supporting the causes and communities that matter most to us.

From mental health awareness to local sporting clubs, we're committed to giving back to the people who have supported our growth.

It's not about grand gestures – it's about showing up consistently for the people and places that make a difference in our local communities.

Ready to power your next project?
