“ Speechless..

It's been 3 weeks and I am still processing the information and the moments we shared with Martin & Antje.

I was left speechless throughout the entire journey, just when I thought it could not get any better, I was proved wrong. I have always wanted to get involved in conservation, but I have always been weary of volunteering opportunities.

This is real, this is raw and it will change you forever, for the better. This is passion.
