

Blue STEAM & Math Teacher – Middle/High School Coastal Sage Montessori | Carlsbad, CA Full-Time | Start June 2026 | \$65k–\$85k DOE

Your Next Adventure: Are you passionate about marine science and math? Coastal Sage Montessori is seeking an innovative educator to lead our Blue STEAM program and teach math to middle/high school students. This hands-on, project-based role blends Montessori principles, applied STEM, and ocean-based learning, preparing students to be the next generation of scientists, environmental leaders, and critical thinkers.

What You'll Do:

- Teach Science and Blue STEAM (marine science, ocean tech, environmental stewardship, applied STEM) and math
- Mentor project-based student work and guide independent research
- Facilitate fieldwork at coastal and environmental sites
- Deliver hands-on, interdisciplinary lessons and track student progress
- Collaborate with faculty, local mentors, and the school community

Who You Are:

- Bachelor's in STEM education, math, or related field (Master's preferred)
- Experienced teaching middle/high school students in STEM/STEAM and math
- Passionate about hands-on, project-based, experiential learning
- Strong classroom management, collaboration, and communication skills
- Montessori training (AMI preferred) or willing to pursue

Why You'll Love It Here:

- Lead an innovative adolescent program integrating Blue STEAM, ocean science, and math
- Small classes allow for meaningful relationships and deep impact
- Field-based learning and student-run micro-economies
- Faith-centered, service-oriented school community
