July 1, 2025

To Whom It May Concern:

This letter is meant to document that Compliant Technologies, LLC a SBA Service-Disable Veteran Owned Certified and Kentucky based company is the sole source provider for proprietary and patent pending technology in the realm of CD3 Technology (Conductive Distraction and De-escalation Device(s)) to include The G.L.O.V.E. (Generated Low Output Voltage Emitter), E-Band and Shield Devices. The low current delivered through these devices and the way it is delivered to interact with the body to provide Neural Peripheral Interference is non-lethal, revolutionary, and proprietary. There are no other like devices on the market that act similarly nor have an exhaustive medical study, product research, or offer as thorough a training process.

Further questions may be directed to Jeff Niklaus, founder and CEO of Compliant Technologies. He can be reached at the 814-441-8744 or [jeff@complianttechnologies.net](mailto:jeff@complianttechnologies.net).

Sincerely,

Jeffrey A. Niklaus

Founder

Compliant Technologies, LLC
