

SPIRITUAL STRATEGY

In Service of the 'Great Rising' in Consciousness.

Foreword:

"For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places."— Ephesians 6:12

There is little doubt among us that humanity and the planet are under attack by a small, malign group that seeks to take control of all aspects of our lives via a form of technocratic totalitarianism. We are witnessing the unfolding of a well-coordinated and long-planned strategy to claim the Earth's resources and usher in an age of trans-humanism and AI-ruled existence for those of us who survive the depopulation activities and attempts at enslavement, currently underway.

A necessary component of this fear-control based agenda is to replace belief in God (or a higher, transcendent power that guides our lives) with an unquestioning belief in The Science (as sanctioned by The State), a secular conceit that belies antagonistic political ideologies towards those with sincerely held religious and spiritual beliefs. For the rest, religions have been co-opted and hijacked to replace trust in and acceptance by a loving, benevolent higher power with fear of judgement and punishment by God, where unworthiness is one's default state.

These beliefs are designed to prevent awakening, and are necessary for the dark agenda. For once an individual has been stirred from sleep, positively-polarised concepts such as truth, honesty, integrity, love, kindness and compassion become embodied and the ability to be manipulated into wrong-doing 'for the greater good' is curtailed. Free-will, choice and personal responsibility are asserted.

The time is now for us to acknowledge the Supreme Creator of all life and know that, "God's creation was not a one-time, over-and-done-with event but is an ongoing creation—a never ending expansion—in light and love. God has given us the power and the mandate to be instrumental in that creation" (Peter Barnhart). Yet man and other forces have kept us divided, in separation. It is our job to unite and act in accordance with our Divine Will, as co-creators of our reality.

If we wish to create Heaven On Mother Earth, we can. We are powerful beyond measure and the great rising in human and planetary consciousness is happening now: where each man, woman and child is stirring from the inside out with a remembering of their divine grace, and an inner calling to assist in the liberation and restoration of the divine plan for humans on Earth.

Vision

Spiritual Strategy

“You never change things by fighting the existing reality. To change something, build a new model that makes the existing model obsolete.” — R Buckminster Fuller

We are living in an evolutionary universe which is propelling us away from an age of fragmented thinking towards a worldview that recognises the vast oneness of All That Is, and hence the deep level of interconnectedness between all life. The rich diversity within this unity is bound together by love and there is a knowing that, “Consciousness is not something we have but is what we—and the whole world—are”.

We believe in and aspire to create a world whose people interrelate peacefully, lovingly and in harmony with each other, the earth and all creatures living within it. We are alert to the sacredness of our existence and our responsibilities to protect and nurture the planet for all who live on it and the generations to come.

We are divine intelligence; we are free, safe, and empowered. There is support, abundance, love, connection and togetherness. We know our strengths and weaknesses: how to put our ego and differences aside to achieve harmony, in a unified movement as a catalyst into the New Earth. It is our time now. We are coherent; we are ready, willing and able to manifest, as creator beings, the infinite potential we are and the reality we seek.

Threats to counteract:

1. The forces of separatism, materialism and the seeking of financial gain above all other considerations for our people and planet within the belief systems of the patriarchy and collective consciousness. [L] [SEP]
2. Outright attempts by the dark forces to control and enslave humanity through psychological manipulation, lies, false narratives, fear, distraction and repetition. [L] [SEP]
3. Ownership and control of many organisational sectors of society, including media, health, education, government, transport, food distribution and commerce. [L] [SEP]
4. Attempts at financial control. [L] [SEP]
5. Censorship, cancel culture, and attack on free speech. [L] [SEP]

Mission (Aims):

1. **Conscious empowerment with truth:** To wield the sword of truth with grace so those with eyes to see can research and discover the mission that is upon humanity from an empowered standpoint in this transition from a fear-based, polarised reality towards unification and love. [L] [SEP]
2. **Healing and wholeness:** To strengthen and heal our physical, mental, emotional and spiritual selves so that we can stand in wholeness as liberated, sovereign, empowered beings, both individually and collectively. [L] [SEP]
3. **Unify:** To facilitate and encourage the gathering of individual thought leaders and groups both at the local, community level and national or global common-purpose level, to assist the move into unity consciousness. [L] [SEP]

Spiritual Strategy

4. **Manifest New Earth:** To follow the maxim, 'build it and they will come' as our compassion in action begins to build heart-based, decentralised communities, initiatives, businesses, groups and economies. The New Earth energy is seeded and now is ready to sprout and grow. [L] [SEP]
5. **Elevate into higher frequency:** Raise the frequency of self, other and the planet by accessing and embodying higher states of consciousness, understanding quantum manifestation, connecting with the land, nature and food, and being humble, honest, generous, kind and loving. [L] [SEP]

In Conclusion:

The great awakening or rising of consciousness — where each man, woman and child stirs from the inside out, with a remembering of their grace and divinity, and a call to rise beyond fear, illusion and the pains of separation — cannot be stopped.

It has been forecast in the stars, recorded on the Schumann resonance, prophesied by the Greats, and is now being lived by those choosing to be the creators of the New Earth. We will enter into peace, harmony and the coming of a new dawn as Christ Consciousness is resurrected, on Earth, as it is in Heaven.

“Out beyond ideas of wrongdoing and right-doing, there is a field.

I’ll meet you there. [L] [SEP]

When the soul lies down in that grass, the world is too full to talk about. [L] [L] [SEP] [SEP]

Ideas, language, even the phrase “each other” doesn’t make any sense. [L] [L] [L] [SEP] [SEP]

The breeze at dawn has secrets to tell you. [L] [SEP]

Don’t go back to sleep. [L] [L] [L] [SEP] [SEP]

You must ask for what you really want. [L] [L] [L] [SEP] [SEP]

Don’t go back to sleep

People are going back and forth across the doorsill [L] [SEP] where the two worlds touch. [L] [L] [L] [SEP] [SEP]

The door is round and open. [L] [L] [L] [SEP] [SEP]

Don’t go back to sleep.”
