Hospital Indemnity Insurance

Prepared for:

A hospital stay can be expensive. Are you protected?

Accidents and illnesses can happen when you least expect it. Your focus should be on your health—not your wallet. But even after your medical insurance pays its portion, you could be facing unplanned bills for deductibles, copays, and coinsurance. EssentialCare Group Hospital Insurance provides fixed payments that can help you manage these costs by providing a cash benefit for covered expenses. Use the money however you wish, so you can focus on your recovery, not your bills.

How does Hospital Insurance work?

Hospital Insurance can supplement existing coverage and provide cash to help cover medical and living expenses. Below is an example of how benefits might be paid.*

Hospital Insurance

Provides fixed payments to help manage costs arising from a hospital stay.

A 55-year old woman suffers a heart attack and is rushed to the ER, then admitted to the hospital.

Hospital admission benefit	\$1,000
Hospital confinement benefit (\$300/day for six days)	\$1,800
Emergency Room Treatment	\$200
TOTAL	\$3,000

*Payouts are estimates and not guaranteed. The examples shown may vary from the plan offering. Your individual experience may also vary. Benefits paid are determined based on individual situations. Terms, conditions, and exclusions apply. See full policy for details.

How might you use these benefits?

Payments can be used for major medical copays and deductibles, or even things like transportation, child care, housekeeping help, or whatever else you may need.

How you use the money is up to you!

Why EssentialCare Group Hospital Insurance?

- ✓ Easy to enroll through a self-service platform
- ✓ Benefits are paid directly to you to spend as you see fit
