THIS NOTICE IS FOR THE CURRENT YEAR'S TAXES ONLY.

Our records indicate that a payment was late or not made by one of the three due dates for the current year's taxes. This has resulted in interest being charged at the rate of 1% for the first 3 months and 1.5% for each month thereafter. When payment is received after a due date, interest charges are deducted first, and then the balance remaining is applied to the tax principal. Therefore, it is possible that the principal may have a balance remaining that is accruing interest.

If you have any questions please contact the Town Office at 802-674-2626.
