Willow Award

EXCELLENCE IN END-OF-LIFE CARE

10/9/2024

My family and I would like to nominate Brandi Fairchild as the Willow-Award recipient. Her care of my mother was truly a saving grace for our family. My mother had been unable to walk for 6 years and my father was the only care giver for her as my brother lived in Texas and I live in Mississippi. When we were home, we did what we could, but dad is devoted to my mom. When Brandi came in with Elite, her serving spirit eased my dad's worries and he was able to rest easier. Brandi was gracious in her care for mom and made sure mom was not in pain during her last days. Brandi would come anytime we called, if she couldn't come (which was rare), she made sure someone that had the same caring spirit was there to take care of us. Brandi took many calls from us about medication and just random questions and was always patient and caring with a heart of gold.

In the weeks of mom's hospice care, Brandi grew very close to our family, she made sure that she was the one to care for mom in the last moments with us before she was carried to the funeral home. Brandi went above and beyond in her care for us as a family. She is an award-winning care giving even if she isn't given this award. She deserves high praise indeed.

Thank you for your consideration,

Tammy Caldwell
