# About Us

Target Mining Resources is a Kalgoorlie-based company specialising in core processing and hands-on training for core logging geologists, geological assistants and general minesite labour. Our training programs are supported by a team of qualified trainers and some are auspice by Central Regional TAFE.

We also provide geological support to exploration and mining clients. We log, photograph, cut, sample, and dispatch samples to the laboratories chosen by clients.

Our on-demand geologists, field assistants and mills labourer's provide short and medium-term solutions to your exploration and mining needs. You plan, we execute.

## Core Competencies

- Experienced and competent trainers
- Experienced geologists
- Experienced field assistants and underground samplers to ensure clients receive the best results for their investment.
- General mine site labour in the mills, and rock prep for laboratories
- All team members are trained and competent in QAQC.
- Trained in ASX standards and code of conduct.
- Being local enables us to respond to our client's needs quickly and effectively.
