

Ristore Mineral Spring Water System

Selenium

Vanadium

Potassium

Magnesium

Sodium

Calcium

PH
7.6-8.5

Strontium

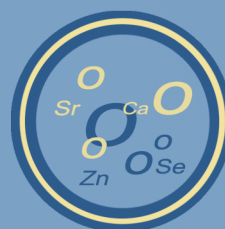

Zinc

Not just an ordinary
water purifier

Natural mineral
rock filter media

High in strontium,
selenium, calcium, zinc and
other mineral substances

Tankless

0.0001 Micron
RO
Deep purification

Patented filter element
for better mineralization
and a healthier experience

Zinc

Zinc is a crucial mineral for a baby's healthy development. It plays a key role in boosting the immune system, supporting normal cell division and growth, and enhancing the body's ability to fight off infections. Zinc is also vital for cognitive development, appetite regulation, and skin health

*STANDARD CONFIGURATION
OF A HIGH-END DUAL WATER OUTLET FAUCET*

*ADVANCED DUAL-WATER TECHNOLOGY
MINERAL SPRING OR RO PURITY AT YOUR FINGERTIPS*

DESIGNED WITH ATTENTION TO DETAIL

Mineral Spring Water

Enriched with nine essential trace elements, including metasilicic acid and strontium, this premium water continues the “healthy water” legacy of snow-capped mountains. With its smooth, soft texture and crisp, sweet taste, every sip is pure
REFRESHMENT

Strontium

Strontium-rich mineral water supports bone health and enhances overall well-being with every sip

Utility model patent number :
ZL2017 2 1220217.9

证书号第7524513号

实用新型专利证书

实用新型名称：一种净水器矿化末端

发 明 人: 庄向欣; 杨传法; 邝小光

专 利 号: ZL 2017 2 1220217.9

专利申请日：2017年09月22日

专 利 权 人：深圳市爱华普环保科技有限公司

地址: 518000 广东省深圳市龙岗区龙岗街道龙东沙背坳龙升路
新意物流大厦A座4楼

授权公告日: 2018 年 06 月 26 日 授权公告号: CN 207537286 U

本實用新型經過本局依照中華人民共和國專利法進行初步審查，決定授予專利權，頒發本證書並在專利登記簿上予以登記，專利權自授權公告之日起生效。

本专利的专利期限为十年，自申请日起算。专利权人应当依照专利法及其实施细则规定缴纳年费。本专利的年费应当在每年 09 月 22 日前缴纳。未按照规定缴纳年费的，专利权自应当缴纳年费期满之日起终止。

专利证书记载专利权登记时的法律状况，专利权的转移、质押、无效、终止、恢复和专利人的姓名或名称、国籍、地址变更等事项记载在专利登记簿上。

Break up minerals and rocks
By MA-MRET mineralization technology
High temperature disinfection
Expansion of raw stone porosity
Increase ion exchange force
Thus, the mineralization time is shortened
The mineralization effect is improved

Tertiary Physical Filtration

Mineralized Water + Pure Water Dual Output Design

Effectively filters scale, heavy metals, bacteria, and other harmful substances
Uses pure physical filtration materials — no added scale inhibitors
Combines the benefits of pure water and mineralized water for flexible usage options

Ensures safety, purity, and balanced mineral content with every drop.

Second Stage

Reverse Osmosis (RO) Membrane
With a filtration precision of 0.0001 micron, this stage effectively removes:

- Pesticides
- Bacteria & Viruses
- Heavy Metals
- Excess Ions and Other Harmful Substances

Ensures ultra-pure drinking water by deeply purifying every drop.

 Recommended Replacement: Every 36 to 48 Months

Third Stage

Snow Mountain Mineralized Core
Infuses water with essential trace minerals such as:

- Strontium
- Metasilicic Acid
- Selenium
- Calcium
- Zinc

This stage utilizes Sancomer Minerals to restore natural mineral balance and enhance water quality.

 Recommended Replacement: Every 12 to 18 Months

First Stage

PPC Composite Carbon Rod
Effectively filters out:

- Suspended particles
- Sediment & rust
- Micro-insects
- Residual chlorine & bleaching powder
- Unpleasant color and odor

Improves the taste and clarity of water by providing a strong initial barrier.

 Recommended Replacement: Every 6 Months

Large water Volume

A Glass of Mineral Spring Water in Seconds

Super Flow Technology

1000G

Product Specifications

Product Name

Cristore Mineral Spring Water

Executive Standards

QB/T 4144-2010

Product Model

AHP-R11

Applicable Water Temperature

4°C-38°C

Rated Voltage

220V 50Hz

Total Pure Water Output

5000L(1000G)

Rated Pure Water Output

0.1Mpa-0.4Mpa

Water taste

fresh and sweet

Filter Replacement Reminder

MODERN ELEGANCE, INTELLIGENT LIVING

Space Saving
