AN0027

AM/FM

Adjustable-Angle Active Rod Antenna

Features

- **Built-in AM/FM Amplifier**

The antenna base integrates an AM/FM amplifier, ensuring high-quality radio reception across various environments.

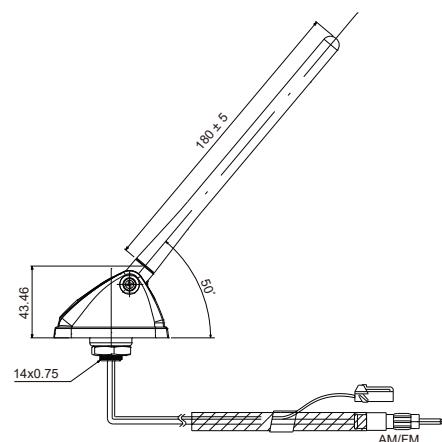

- **Compact and High-Quality Reception Design**

Features a short, adjustable-angle mast that ensures optimal AM/FM reception even with a shorter-than-standard rod, providing excellent performance in a compact form.

- **Customizable Cable and Connector**

Provides flexibility with customizable cable length, type, and connector configurations to meet different installation and system needs.
