AN8243

2×2 MIMO 2.4-5.0-6.0GHz/Wi-Fi 7/BT/ISM

Wi-Fi 7 MIMO Combination External Antenna

Features

- **Multi-band Support**
This antenna supports 2.4/5.0/6.0 GHz ISM bands, suitable for various wireless applications.
- **High Efficiency and Gain**
Delivers superior data throughput and extended range with MIMO technology, all within a compact design. High isolation between antennas minimizes interference and ensures efficient operation even with longer cables.
- **Ground Plane Independent**
Antenna performance is not affected by the ground plane, allowing flexible application in different environments.
- **IP67 Rated**
Provides IP67 ingress protection, capable of withstanding harsh environments.

Application

- **Transportation**
Ensures robust communication for vehicle tracking and fleet management systems.
- **IoT Gateways and Routers**
Enables reliable and high-speed connectivity for IoT devices.
- **HD Video Streaming**
Supports seamless streaming of high-definition video content.
- **Remote Monitoring**
Provides stable connections for remote surveillance and data acquisition.
