

NEW DRIVEWAY PROTECTION PLAN

Your new driveway is a significant investment that needs routine maintenance to maximize its longevity. Asphalt is under constant attack from many factors including:

- **Oxidation:** The sun's UV Rays attack the asphalt binder, drying it out and oxidizing the pavement leaving it brittle.
- **Moisture:** Unsealed pavement allows water to penetrate leading to base erosion & freeze and thaw damage.
- **Chemicals:** Left unsealed, oil and gas will deteriorate the asphalt binder causing deterioration.

Routine Sealcoating protects from all of these factors and also beautifies the pavement for a uniform and clean appearance. When you sign up for a driveway protection plan, you get a stronger, longer lasting driveway plus all of these benefits:

WARRANTY

Activate your 5-Year warranty by sealcoating your driveway within 2 years of installation.

A 5-Point driveway inspection is scheduled every 2 years throughout the warranty period to make sure the driveway is performing to our standards. We provide you with a report stating any recommendations or covered warranty items. We can identify any potential problems and correct them.

ROUTINE INSPECTIONS

SAVINGS

Your driveway sealcoating price will be locked in for all future services. No increases! You pay the same rate every time as a member. Typically our pricing goes up about 4% - 5% per year which will save you hundreds of dollars over time!

As a member, we will contact you every 2 years when it's time to sealcoat so you do not have to worry about it. One less thing on your To Do list!

AUTOMATED AND PRIORITY SCHEDULING

LONGER LIFESPAN

Sealcoating every 2 years can DOUBLE the life of your driveway. Protecting the asphalt will result in less cracking and less deterioration, saving you money in the long run.

As a member, receive 5% OFF all exterior home washing services! We clean siding, brick, stucco, sidewalks, patios, pool decks, roofs, and more!
