Est. 1988

Quality, Comfort, Security, Warmth

About Us

Prior Products is a family run business. We started out in 1988 at a unit on the Atherstone-on-Stour Industrial Estate, just outside Stratford upon Avon. In April 2000 we moved into our own purpose built factory on The Bird Industrial Park at Long Marston. Since then we have gone from strength to strength, opening a Conservatory Centre in 2006 at The Stratford Garden Centre in Clifford Chambers.

We believe in old fashioned values, which is why most of our work is from existing customers and recommends. We approach our work from your point of view, offering the complete package, ensuring complete care from start to finish.

All our PVCu windows, doors and conservatories are manufactured at Long Marston and installed by our fully trained installers. We are going through an exciting stage in this industry, with so many options available now. Our sales team of representatives will guide you through our full range of up to date Rehau PVCu products to help you get the most out of this exciting new investment in your home.

Quality, Comfort, Security & Warmth

At Prior Products we pride ourselves on providing top quality products at a reasonable price.

Our PVCu windows, doors and conservatories are designed and manufactured in-house, using industry leading Rehau profiles. In addition, we insist that all of our aluminium and timber products are made to the same exacting standards. The quality of our products is matched by the skill of our fitters. All installations are carried out by MTC cardholders, backed by CERTASS, the window industry certification body.

All of our hardware, including locks, handles and hinges, have been tested to meet European standards for security and strength. We hold BFRC energy rating licences for our windows, which are manufactured at our Long Marston factory, with this knowledge you can relax at home in comfort knowing that you are saving on your energy bills and doing your bit to reduce carbon emissions.

PVCu Casement Windows

Give your home a fresh new look, improve its security and reduce your heating bills by choosing replacement windows from Prior Products Ltd. We'll guide you through our wide choice of window styles, materials, colours and finishing touches, as well as show you our latest energy-efficiency products and security features.

Add your choice of finishing touches, decorative designs and opt for PVCu double or triple glazing. Every window is bespoke and individually made, for a perfect fit, giving you the ultimate in great looks, warmth, security and ease of maintenance.

Our PVCu casement windows allow maximum light into your rooms and their energy-efficiency can help cut your heating bills. They look great, help to keep you safe and can be designed to be unique to you.

Traditional PVCu Casement Windows

The Cottage style window really does give you the best of all worlds; cost saving, energy efficiency, beautiful design lines, over 18 colour options and with Prior Products pedigree of manufacturing excellence which ensures a perfect fit, every time.

Our Cottage style window really does have to be seen to be believed. The intricate, detailed, handcrafted elements of this window really take it to the next level of excellence. Customers often cannot believe it is not a real timber window.

Personalise your windows with a choice of handles and dummy peg stays, all sourced in the UK. They are available in two styles, Monkey Tail and Tear Drop. They are available in following colour options Gold, Chrome, Graphite and Antique Black.

Image shows Vertical Sliding Sash Windows with Feature Sash Horns.

Vertical PVCu Sash Windows

Add elegance and a splash of period grandeur to your home with Vertical Sliding Sash Windows. Made from one or more movable 'sashes' for maximum ventilation, you can also create the appearance of individual panes with cottage bars. Choose between double and triple glazing, then make your choice of colour and fittings.

Our Vertical Sliding Sash windows come with A-rated glass as standard to help reduce your heating bills and keep your home warm. We can even make them tilt so cleaning is easy.

It's simple to find the cost and energy savings you're looking for – one of our sales consultants will visit you at home to give expert advice based on your particular needs and show you the benefits of installing A-rated glass. They'll also guide you through deciding on decorative bars and glass to give your home the style you're looking for. Once you've decided what you want, they can give you an accurate quote.

Image shows Tilt and Turn Windows with Curved Heads and Bespoke 25mm Georgian Bars.

Tilt and Turn Windows

With a crisp, modern style that enhances any type of property. Tilt and Turn windows can be tilted for effective ventilation and turned for ease of cleaning from the inside. Made from energy-efficient materials, they will also help to keep you warm and your heating bills low.

Our Tilt and Turn PVCu windows will let the summer in and help keep winter chills out. They can help to reduce your heating bills and keep your home warm when it's cold outside with their energy-efficient construction.

Fitted with energy-efficient glass as standard, you can even opt for triple glazing for additional heat-retention and noise reduction. One of our sales consultants will visit you at home to give you expert advice on how to find the cost and energy savings you're looking for.

Entrance Doors

Our stylish PVCu doors are manufactured in our factory so we can guarantee you the highest quality. Their multi-chambered profiles of extruded PVCu granules make them thermally-efficient, they won't fade or discolour and are virtually maintenance-free. We also fit high security hinges and locking mechanisms as standard, giving you state-of-the-art security. Complete your door with solid or glass panels in a variety of designs.

All our PVCu doors come in a choice of seven colours, including the ever-popular standard white, as well as attractive wood effect finishes in Golden Oak, Rosewood, Simply White, Chartwell Green, Clotted Cream and Anthracite Grey. It means they'll look good on their own or can be made to match your windows. If you prefer, you can also opt for a wood effect exterior and white interior.

Make your doors unique with our stylish range of door knockers, handles and letter plates that are all available in gold, chrome, black and white. We can also fit cat flaps, spy holes and safety chains to your doors if required.

Composite Doors

Composite doors offer your home good looks and durability. Constructed from glass-reinforced polyester, they have the appearance of traditional wood and are energy-efficient, easy to maintain and very secure – every front and back door is fitted with state-of-the-art security locks.

Our composite doors are available in a wide range of styles, helping you find the perfect look for your home.

Give your entrance real impact by choosing one of our stunning colour options such as Poppy Red, Duck Egg Blue, Black Brown, Dark Blue, Racing Green, Golden Oak, Darkwood, Cream, Anthracite Grey and Chartwell Green. The door can be as individual as you like.

Composite door panels are made from glass reinforced polyester (GRP), which prevents warping and provides excellent insulation, soundproofing and weatherproofing.

handles in polished chrome.

French PVCu Doors

French Doors are an elegant way to open up your room to the fresh air in the summer and their energy-efficiency enables you to enjoy views of your garden from the warmth inside when it's chilly.

All our French Doors come in a choice of seven colours, including the ever-popular standard white, as well as attractive wood effect finishes in Golden Oak, Rosewood, Simply White, Chartwell Green, Clotted Cream and Anthracite Grey. This means they'll look good on their own or can be made to match your windows. If you prefer, you can also opt for a wood effect exterior and white interior.

We also fit high security hinges and locking mechanisms as standard, giving you state-of-the-art security.

Our French Doors are fitted with sealed units incorporating technically advanced 'soft coat' glass to provide unrivalled levels of thermal performance. Highest quality toughened glass comes as standard.

Patio PVCu Doors

Sliding Patio Doors are a great addition to any home, allowing you to link the inside and your garden without having to leave space for externally-opening doors. They are smooth to operate, energy-efficient and come in a wide range of colours. They also offer the ultimate in security as well as style.

We can help you find the patio door you're looking for to suit your home's unique style. One of our consultants will visit you at home to give you expert advice tailored to your specific circumstances.

Make your PVCu Sliding Patio Doors unique to your home by choosing the style, colour, glass option and decorative glass effects. Once you've selected your ideal patio doors, our sales consultant will measure up and give you an accurate quote.

A bright, modern conservatory with a glass roof and large aluminium bi-fold doors. The interior features a glass coffee table with a vase of flowers and a book. The view outside shows a garden with greenery and a brick house.

Blue-Active glass in the roof.

Aluminium Bi-fold Doors

Aluminium external bi-fold doors perfectly combine your home and garden into a seamless living space. Enjoy extra light and outdoor views in cooler weather and bring the outdoors in when it's warm by folding away the glass panels.

Modern, energy-efficient and stylish, our folding aluminium bi-fold doors will enhance your pleasure in your home and give you peace of mind with the best locking system available.

Our stylish but practical bi-fold doors are built to your needs, offering you a bespoke solution every time, from the configuration of the doors to the handles, accessories and colour, making Prior Products bi-fold doors the perfect addition to your home.

Aluminium Entrance Doors

Aluminium doors are sleek, modern and will give your entrance a contemporary look. Individually made using only the highest-quality extruded aluminium alloy and powder coated for an attractive and long-lasting finish.

Entrance Doors are available in a wide variety of colours, finishes and formats to best complement your home.

Our range of high performance Entrance Doors have safety and security at the heart of their manufacture, which is why all of our hardware is tested to PAS24.

Our Entrance Doors are available in a complete range of glazing formats and include several added security features, including multi point locking mechanisms.

Aluminium Windows

Aluminium is the perfect material to give a contemporary, modern edge to your home's appearance. The frames are lightweight and secure, and their narrow profile maximises the sunlight flooding into your rooms.

They'll keep their good looks because we use the highest-quality aluminium alloy and coat the frames with polyester powder to create a long-lasting finish that won't corrode.

Every window is double glazed for energy efficiency and designed and built exclusively for you. Our choice of configuration, finishing touches and more than 200 colours makes it easy to add your own unique style to your home.

Wide expanses of glazing can be achieved to create a relaxed and comfortable living environment for you and your family to enjoy. With minimal maintenance and full guarantees, you can rest assured that you are installing the most reliable windows available.

Bespoke Timber Windows and Doors

We install high performance Bespoke Timber Windows and Doors that will keep your house beautiful and you warm and draught free for a lifetime.

Our product ranges are carefully designed to include a wide selection of Bespoke Window and Door types. Whether you are replicating an existing design or creating a new and inspiring look we offer ironmongery, colour and design choice to complement the internal and external aesthetics of your project.

We use only the finest paint system, timber, hinges and ironmongery. High performance, high security and enhanced weather features mean our windows and doors will perform for years to come.

All products are manufactured using 100% FSC timber responsibly sourced from well-managed, certified forests.

The image shows two automatic GRP sectional garage doors installed in a wooden frame. The doors have a horizontal plank design with a natural wood grain texture. They are set under a dark brown tiled roof with a matching gutter. To the right, a small green shrub in a terracotta pot is visible. The ground in front is a light-colored gravel or concrete surface.

Garage Doors

We pride ourselves on offering a complete range of quality Garage Doors, so whether you're looking for an Up and Over, Sectional, Roller or Side Hinged design, we have a great solution for you.

Our range of Garage Doors has been designed carefully to appeal to all tastes. We have a wide range of standard colours, door types, materials and designs to choose from, so you'll easily find a Garage Door that is in keeping with the style of your property.

Our diverse range of Garage Doors has been engineered with durability, reliability and security as standard, so you'll have the peace of mind that your Garage Door will stand the test of time and be a stylish, long-lasting and cost-effective addition to your home.

Conservatories and Orangeries

We'll create your perfect Bespoke Conservatory or Orangery from our durable, low-maintenance PVCu. Pick your favourite style, add a glass or solid roof, then we'll build it to your precise specifications - including size, colour and decorative finishes.

We look after every part of your Conservatory's construction ourselves to ensure that it's built to the highest standards. We only use our own builders to construct our conservatory bases giving us complete control of every installation.

Our double glazed glass is of the highest quality too, preventing draughts, reducing outside noise and providing energy efficiency – lowering your heating bills in the process.

PVCu Conservatories never flake, rot or rust and keep their original beauty with little more effort than an occasional wipe – giving you more time to enjoy your beautiful new living space.

GRP Carports and Door Canopies

Our stylish carports, patio canopies, door canopies and walkways have been successfully installed throughout the Midlands. If you want to extend your outdoor space for the summer, protect your patio and garden from harsh weather, or say goodbye to unloading your car in the rain or snow, then our carports and home canopies are the solution.

We know that making the garden a relaxing space is a must for many homeowners, which is why our bespoke systems are designed to maximise your home and outdoor area.

Our portfolio of products will add style and value to your property, not to mention provide practical solutions for protecting your car or property from the elements.

Our unique cantilevered house canopy and carport designs are completely self-supporting, saving valuable space and are ideal for parking your car under. Our door canopies add an ideal finishing touch to the front of your home and offer respite when struggling with your keys.

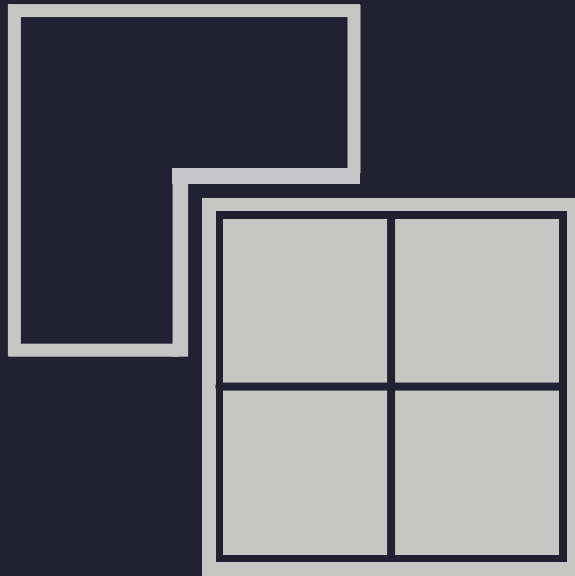

Fascias, Soffits, Guttering and Cladding

Our PVCu roofline range offers all the products that you'll need to make your roof both attractive and weather-proof for many years to come. It includes bargeboards, cladding, fascias, soffits, guttering and downpipes, all providing durable and low-maintenance protection that will stop rot and leaks and keep your home damp-free and looking great.

Our roofline range is available in many colours; light finishes such as White and White Woodgrain, Greys, Greens, Browns and dark finishes such as Dark Woodgrain and Black.

All our products are produced in accordance with BS EN ISO 9002, with the roofline and cladding profiles BBA approved.
